PART 1010—SUSPENSION ORDERS

[Suspension Order S-410]

SOUTH SOO LUMBER CO.

South Soo Lumber Company, the Respondent, is engaged in the retail lumber business at 40th and Minnesota Streets, Sioux Falls, South Dakota. During the period from February 15, 1943 to March 8, 1943, the Respondent ordered approximately 307,000 board feet of Ponderosa Pine Lumber using a rating of AA-1 although he was entitled to use such rating for only 63,037 board feet of such lumber. This unauthorized use of the rating constituted a violation of Priorities Regulation No. 3 and of Conservation Order M-208.

Respondent, from the nature of its business and from the course of its business dealings, must be deemed to have known of these regulations. Such actions constituted wilful violations of Priorities Regulation No. 3 and Conservation Order M-208, diverted critical materials to uses unauthorized by the War Production Board and hampered and impeded the war effort of the United States. In view of the foregoing; *It is hereby ordered,* That:

§ 1010.410 *Suspension Order No. S-410.* (a) Deliveries of softwood lumber to South Soo Lumber Company, its successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied, or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to South Soo Lumber Company, its successors or assigns, of any material, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve South Soo Lumber Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 27, 1943 and shall expire on November 27, 1943.

Issued this 20th day of August 1943.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Limitation Order L-311]

LOGGING, LUMBER, AND WOOD PRODUCTS MACHINERY AND EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in the production of woodworking machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.83 *General Limitation Order L-311*—(a) *Definitions.* For the purposes of this order:

(1) "Producer" means any person who produces, manufactures or assembles woodworking machinery.

(2) "Dealer" means any person engaged in the business of acquiring woodworking machinery for resale; it includes a wholesaler, distributor, jobber, retailer, branch warehouse or other distribution or sales outlet, whether or not owned or controlled by a producer, and any other person performing similar functions.

(3) "Woodworking machinery" means any new machinery or equipment of the kinds specified in Schedule A of this order.

(4) "Class I woodworking machinery" means any woodworking machinery which had a producer's list price on October 15, 1942, of more than $350 for any single machine or piece of equipment.

(5) "Class II woodworking machinery" means any woodworking machinery which had a producer's list price on October 15, 1942, of $350 or less for any single machine or piece of equipment.

(6) "Order" means any commitment or other arrangement for the delivery of woodworking machinery, whether by sale, lease, consignment or otherwise.

(7) "Producer's list price" means the sale price at which the producer's catalog or other price publication, listed the woodworking machinery, exclusive of the motor, motor drive or any attachments. However, where the motor, motor drive, or any attachments are initially built into the basic machine as an integral part of it, the "producer's list price" shall mean the sale price at which the producer listed the machine as an assembled unit.

(8) "Army, Navy, Maritime Commission, or War Shipping Administration" do not include any privately operated plant or shipyard financed by, or controlled by, any of those agencies, or operated on a cost-plus-fixed-fee basis.

(b) *Restrictions on sale or delivery of Class I woodworking machinery*—(1) *Authorization of purchase orders for Class I woodworking machinery required.* After September 11, 1943, no person shall place an order for Class I woodworking machinery with a producer or dealer, and no producer or dealer shall accept any order for Class I woodworking machinery, or deliver any Class I woodworking machinery to fill any order received after that date, unless the order has been authorized by the War Production Board on Form WPB-3131. Application for an authorization and for a preference rating must be made by the purchaser by filing Form WPB-3131 with the War Production Board as explained in the instructions which accompany the form.

(2) *Exemptions.* The restrictions contained in paragraph (b) (1) shall not apply to:

(i) Any orders for or deliveries of Class I woodworking machinery to be used directly by the Army, Navy, Maritime Commission or War Shipping Administration;

(ii) Any orders from or deliveries to a producer or dealer to enable him to fill orders authorized on Form WPB-3131

[1] Form filed as part of the original document.

which he has actually received or to replace woodworking machinery delivered by him from his inventory to fill orders authorized on Form WPB–3131.

(iii) Any order bearing a preference rating assigned pursuant to application on Form WPB–617 (formerly PD–200).

(3) *Certification of authorization which may be used.* Any person applying or extending a preference rating on any order which any of the provisions of this paragraph (b) permit him to place may add to the certificate applying or extending the rating a statement substantially as follows: "This purchase is permitted by Order L–311 which I am familiar with." Any person receiving a certification and rating with this statement shall be entitled to rely on the representation thereof unless he knows or has reason to believe it to be false. However, the application or extension of a preference rating on any purchase order which a person is permitted under this paragraph (b) to place shall not be invalid for failure to place this statement on the order.

(c) *Preference ratings on orders for Class II woodworking machinery.* After September 11, 1943, no manufacturer or dealer shall accept any order for Class II woodworking machinery or deliver any Class II woodworking machinery to fill any order received after that date unless it bears a preference rating of AA–5 or higher.

(d) *Restrictions on dealers' inventories of Class II woodworking machinery.* No dealer shall accept delivery of any Class II woodworking machinery which will increase his inventory of that size and type of machine or equipment (irrespective of manufacturing make) beyond five in number; and no producer or dealer shall deliver or cause to be delivered to any dealer any Class II woodworking machinery which he knows or has reason to believe will increase the receiving dealer's inventory of that size and type of machine or equipment (irrespective of manufacturing make) beyond five in number.

(e) *Restrictions on production of Class II woodworking machinery.* Beginning with October 1, 1943, no producer shall fabricate or assemble during any calendar month more Class II woodworking machinery by dollar value than 50% of the quantity by dollar value shipped by him during the second and third preceding months. For example, the dollar value of production in October cannot exceed 50% of the dollar value of shipments in July and August. However, a producer may exceed this limit to the extent necessary to permit him to fill specific purchase orders rated AA–5 or higher actually received by him.

(f) *Operations reports.* Each producer shall, on or before the 10th day of each month after September 1943, file with the War Production Board an operations report on Form WPB–3130 as explained in the instructions which accompany the form.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Appeals.* Any appeals from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(4) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington, D. C., Ref: L–311.

(5) *Approval of reporting requirements.* The form of application specified in paragraph (b) (1) and the reporting requirement of paragraph (f) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 27th day of August 1943.

PART 1307—RAW MATERIALS FOR COTTON TEXTILES

has been filed with the Division of the Federal Register.*

Section 1307.12 (d) (3) is amended by adding after the first paragraph of the section the following paragraph and footnote thereto:

For the purposes of this regulation a person is acting as an agent of a war procurement agency to purchase yarns at the maximum prices appearing in Column B only if his authority is conferred by or derived from an agency designation issued by a war procurement agency especially for such purpose.[4a]

[4a] War procurement agencies are using specially devised procedures for designation of purchasers as their agents for the purpose of this section. In the absence of any such specific designation a seller is not permitted to charge and a buyer is not permitted to pay the maximum prices appearing in Column B of this section. The mere fact that a purchaser has a contract covering goods to be furnished to a war procurement agency and/or a contract carrying a preference rating does not constitute him an agent (as the term is used herein) of a war procurement agency.

This amendment shall become effective the 1st day of September 1943.

PART 1340—FUEL

[RPS 88,[1] Amdt. 123]

PETROLEUM AND PETROLEUM PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Price Schedule No. 88 has been amended in the following respects:

1. Section 1340.159 (b) (11) (ii), (iv) and (v) are renumbered to be (iv), (vi) and (vii) respectively. Subparagraph numbered (iii) which begins with the words "For the purpose of" is renumbered as (v).

2. Section 1340.159 (b) (11) (i) is renumbered as (iii) and amended to read as follows:

(iii) Unless otherwise provided in this Paragraph (11) and notwithstanding any other provisions of § 1340.159 (b) a seller's maximum tank wagon price, in states other than those named in paragraph (i) above, for a particular grade of gasoline, kerosene, range or stove oil, distillate fuel oils, and tractor and Diesel fuel shall be the maximum price as determined under other porvisions of this schedule of the reference tank wagon seller named hereunder for the same grade at the same point provided the reference tank wagon seller's maximum price is higher than the maximum price which would otherwise be applicable.

3. Section 1340.159 (b) (11) (i) and (ii) are added to read as follows:

(i) Notwithstanding any other provisions of § 1340.159 (b) a seller's maximum tank wagon price for a particular grade of gasoline, kerosene, range or stove oil, distillate fuel oil, Diesel fuel, or tractor fuel, at a particular point in any of the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, or Wisconsin shall be either the hereinunder named reference tank wagon seller's normal price, as posted on October 1, 1941, for the same grade of the particular product at the same point or the sum of said reference seller's maximum tank wagon price for such product at the same point as established under other provisions of this schedule and .7¢ per gallon, whichever is the lower, except that in the case of tractor fuel if a tank wagon seller's maximum price as determined under other provisions of this schedule is higher then such maximum price shall remain in effect.

If the reference seller has no established maximum price at a particular point for a particular grade of any of the products named above, then a tank wagon seller's maximum price shall be his maximum price as determined by other provisions of this price schedule.

Any tank wagon seller whose maximum price to a retail dealer is increased pursuant to this paragraph (11) shall give notice to such retail dealer in accordance with § 1340.163 (c) of this schedule.

(ii) *Supplier's maximum prices.* In computing the supplier's maximum price for kerosene and fuel oil, the tank wagon price used in any computation under (*a*) and (*b*) hereunder shall be regarded as .3 of a cent less than the actual maximum price. A supplier's maximum price at a particular shipping point shall be his maximum price determined by other provisions of this Price Schedule. A supplier's maximum price, for a particular grade of one of the products named at a particular delivery point, to a tank wagon seller whose maximum price at such point is increased under the terms of sub-paragraph (i) shall be determined as follows:

(*a*) If there was a contract in effect on October 1, 1941, between the supplier and such tank wagon seller, and such contract provided for varying the price of the supplier to such tank wagon seller on the basis of the tank wagon price at the particular delivery point and if such tank wagon seller's maximum price is increased but not to the normal price of the reference seller as posted on October 1, 1941, then the supplier's maximum delivered price shall be increased only when the tank wagon seller's margin would be in excess of that called for in the contract had the tank wagon seller's price been increased to normal and the extent of such increase in the supplier's maximum price shall be the amount of such excess.

(*b*) If there was a contract in effect on October 1, 1941, as described in (*a*) above, and if such tank wagon seller's maximum price is increased at any point to the normal price of the reference seller as posted on October 1, 1941, then the supplier's maximum price shall be altered in accordance with the provisions of such contract.

(c) If a contract as described in (*a*) above was not in effect on October 1, 1941, then the supplier's maximum price shall be determined by other provisions of this schedule.

Illustrations. *The .3¢ per gallon increase permitted under Amendment No. 53 is excluded from these illustrations as it should be from similar computations.

	Cents per gal.
A. Reference Seller's Normal Posted Price as of October 1, 1941	9.0
Reference Seller's *Present maximum price	8.5
Amount below normal	0.5
Results:	
1. Present ceiling is increased to normal because the amount below normal is less than .7¢ per gallon and the new ceiling is **9.0¢ per gallon.	
2. Supplier's maximum price to the tank wagon seller may be changed in accordance with the provisions of Subdivision (*b*) above.	
B. Reference Seller's Normal Posted Price as of October 1, 1941	9.5
Reference Seller's *Present maximum price	8.5
Amount below normal	1.0
Results:	
1. Present ceiling is not increased to normal because the amount below normal is more than .7¢ per gallon but the entire .7¢ per gallon is added to the present ceiling and the new ceiling is **9.2¢ per gallon.	
2. Supplier's maximum price to the tank wagon seller may be changed in accordance with subdivision (*a*) above.	

**Plus the .3¢ per gallon increase authorized under Amendment No. 53.

This amendment shall become effective September 1, 1943.

SEC. 17. *Adjustments.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment is operating under such hardship as to cause a substantial threat to the continuance of its operations.

(2) It is determined with reasonable certainty that such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation; and

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much as or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices[2] by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period, and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present maximum prices and your requested, adjusted prices.

(6) A profit and loss statement, or, if none is available, a statement showing earnings and expenses, for your restaurant business for the most recent 3 month accounting period.

(7) A profit and loss statement, or, if none is available, a statement showing earnings and expenses, for your restaurant business for your most recent full calendar year or fiscal year. If your last income tax return was filed separately for your restaurant business, you may, if you prefer, file a copy of your income tax return in place of the profit and loss statement.

Applications for adjustment under this section may be acted upon by any district office that has been authorized to do so by order of the Regional Administrator.

This amendment shall become effective August 15, 1943.

Deducted from: The supplier's applicable Ceiling Price of the product at the destination where delivery is made. Will result in: The amount of Revenue to be reported on sales of products purchased from the Navy; in no event, however, should the amount of Revenue to be reported exceed the applicable Revenue Price Increases, as defined in section 1 (q) of Revised Regulation No. 1. If the supplier's applicable Ceiling Price will not permit him to realize all or part of the margin of 10¢ per barrel, the supplier may not deduct such unrealized margin from other Revenues for which he must account. Tanker freight charges should not be included in the computation of the supplier's applicable Ceiling Prices in cases where products are purchased from the Navy at prices which do not include tanker freight charges and are delivered by the supplier, at prices which do not include tanker freight charges, to vessels operated for the account of the War Shipping Administration.

Section 5.2 (a) is amended to read as follows:

§ 5.2 *Organization and administration.*—(a) *Organization.* The Auxiliary, a voluntary organization of citizens, who are owners of motorboats or yachts, shall be organized for the purpose of,

(1) Furthering interest in safety of life at sea and upon navigable waters,

TITLE 46—SHIPPING

Chapter II—Coast Guard: Inspection and Navigation

WAR DEPARTMENT VESSELS

WAIVER OF NAVIGATION AND INSPECTION LAWS

The Secretary of War having requested, pursuant to section 501 of the Second War Powers Act, 1942, 56 Stat. 180 (50 U.S.C., App., Sup. II, 635), that the Secretary of the Navy waive compliance with the navigation and vessel inspection laws administered by the Coast Guard to the following extent:

Whenever, with respect to any vessel owned, chartered, operated by, or carrying cargo or personnel for the War Department, an application under the procedure set forth in "Waiver of Navigation and Vessel Inspection Laws," 8 F.R. 9164, results in a denial to effectuate the waiver made in the order of the Acting Secretary of the Navy, dated October 1, 1942, 7 F.R. 7979, the navigation and inspection laws which were the subject of such application shall nevertheless be waived if the Commanding Officer of the port of embarkation or his duly authorized representative finds that military urgency outweighs the marine hazard involved and so states in writing to the District Coast Guard Officer or to his designated representative (or, in case of a vessel in a foreign port at which the Coast Guard has established facilities, to the designated representative of the Commandant) to whom the original application was made.;

And the Secretary of War having stated in such request that he deems such action necessary in the conduct of the war;

Now, therefore, pursuant to the direction in section 501 of the Second War Powers Act, 1942, I hereby waive compliance with the navigation and vessel inspection laws to the extent so requested by the Secretary of War.

FRANK KNOX,
Secretary of the Navy.

The Commission, on August 24, 1943, effective immediately, adopted a new section as follows:

§ 2.66 *Discontinuance of operation.* Unless otherwise required by the rules governing the particular service in which a radio station operates, the licensee of each fixed or land radio station, except stations operating in Alaska, shall notify the inspector in charge of the district where such station is located of any of the following changes in the status of such station at least two days before such change:

PART 4—RULES GOVERNING BROADCAST SERVICES OTHER THAN STANDARD BROADCAST

SUBSTITUTION OF LETTER CALLS FOR LETTER-NUMERAL CALLS

The Commission on August 24, 1943, adopted a plan to substitute letter calls for high frequency (FM) broadcast stations in place of the letter-numeral calls now being used by such stations. This change is based upon the past experience of FM broadcasters in the use of letter-numeral calls and the desirability of making the change at this time. Approximately 45 high frequency (FM) broadcast stations now in operation and all future licensees of such stations are affected.

The Commission's plan provides that four-letter calls be used for FM stations, except in cases where the licensee of an FM station is also the licensee of a standard broadcast station and both stations are located in the same city, the call letters of the standard broadcast station followed by the suffix "FM" may be requested for the FM station. No new three-letter calls will be assigned to FM stations.

In order that the change in station calls may be carried out in an orderly manner all FM stations are required to begin using the new calls on November 1, 1943 and in all cases where a request for call letters has not been received by the Commission on or before October 1, 1943, four-letter calls will be assigned at the discretion of the Commission.

FM licensees may request several of the four-letter station calls available in the order preferred, and in cases where the same letters are requested by two FM licensees, the request first received by the Commission will have prior consideration. Presently unassigned four-letter call lists are not available for mailing, but such lists may be inspected at the offices of the Commission in Washington, D. C.

By the Commission.

Secretary.

PART 6—RULES GOVERNING FIXED PUBLIC RADIO SERVICES

RADIOTELEGRAPH AND RADIOTELEPHONE STATIONS

The Commission on August 24, 1943, effective immediately, amended §§ 6.9 and 6.10 to read as follows:

§ 6.9 *Radiotelegraph.* The term "radiotelegraph" as hereinafter used shall be construed to include A–0, A–1, A–2 and A–4 emission.

§ 6.10 *Radiotelephone.* The term "radiotelephone" as hereinafter used shall be construed to include type A–3 emission only.

The Commission also adopted the following new sections:

§ 6.11 *Use of A–3 emission by radiotelegraph stations.* The licensee of a point-to-point radiotelegraph station may be authorized to use type A–3 emission for the purpose of transmitting addressed program material as set forth in § 6.51 and for the purpose of controlling the transmission and reception of facsimile material.

§ 6.12 *Use of A–0, A–1 or A–2 emission by radiotelephone stations.* The licensee of a point-to-point radiotelephone station may be authorized to use type A–0, A–1 or A–2 emission for test purposes or for the exchange of service messages.

NOTICE OF APPLICATION

AUGUST 25, 1943.

Notice is hereby given that on August 19, 1943, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by California Electric Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of Arizona, California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing the sale and transfer of (a) all of its electrical transmission and distribution facilities devoted to and used in its electric operations in the County of Imperial, California and in that part of the County of Riverside, California, described in the application as "District Coachella Area" consisting of approximately fifty-four townships in said County of Riverside and including the area to be served with water from the Coachella branch of the All-American Canal, excepting, however, its Palo Verde Valley transmission line extending from Calipatria in the County of Imperial to Blythe in the County of Riverside, (b) two short sections of electric transmission lines in said Riverside County outside said District Coachella Service Area, and (c) its electric transmission line extending between Rincon in the County of San Diego, California and El Centro in said County of Imperial, to Imperial Irrigation District, a public agency of the State of California, for a consideration stated in the application to be $4,900,000, subject to certain adjustments; all as more fully appears in the application on file with the Commission.

BERRY FLOWER SHOP, ET AL., DETROIT FLORISTS

RECOMMENDATION OF JOINT ACTION PLAN

Pursuant to a provision of a general order issued by the Office of Defense Transportation for the purpose, among others, of conserving and providently utilizing motor vehicles and vital equipment, materials and supplies, (General Order ODT 17, as amended, 7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 8377, 10910), Louis Berry, doing business as Berry Flower Shop, Christopher J. Engel, doing business as Engel's Green House, and Alexander Ivan, doing business as Ivan Flower Shop, all of Detroit, Michigan, have filed with the Office of Defense Transportation for approval a joint action plan relating to the transportation and delivery by motor vehicle of flowers and related articles in Detroit and contiguous municipalities west and south of Detroit.

The participants in the plan propose to eliminate waste in the transportation of flowers and related articles by rearranging delivery routes and by pooling the use of their trucks and by reducing and curtailing deliveries. Each participant will operate one truck every third week, making all deliveries for the three participants. Occasionally and with the consent of the other participants Christopher J. Engel will operate his truck, in addition, to transport fertilizer and other materials in connection with his greenhouse. All deliveries beyond a 10-mile radius will be discontinued; and not more than two deliveries a week will be made to hospitals beyond a 3-mile radius. The participants estimate that effectuation of the plan will result in savings of 6,000 truck-miles a year. Joint selling activities are not contemplated.

It appearing that the proposed joint action plan is in conformity with General Order ODT 17, as amended, and that the effectuation thereof will accomplish substantial conservation and efficient utilization of motor trucks and vital materials and supplies, the attainment of which purposes is essential to the successful prosecution of the war, I have approved the plan and recommend that the Chairman of the War Production Board find and certify under section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with said joint action plan, is requisite to the prosecution of the war.

ICE DEALERS OF TOLEDO, OHIO

RECOMMENDATION OF JOINT ACTION PLAN

Pursuant to a provision of a general order issued by the Office of Defense Transportation for the purpose, among others, of conserving and providently utilizing motor vehicles and vital equipment, materials and supplies, (General Order ODT 17, as amended, 7 F.R. 5678, 7694, 9623; 8 F.R. 8278, 8377, 10910), The Ice Delivery Company and 24 others listed in Appendix A hereto, have filed with the Office of Defense Transportation for approval a joint action plan relating to the transportation and delivery by motor vehicle of ice in Toledo, Ohio, and nearby towns in Ohio and Michigan.

The participants in the plan propose to eliminate wasteful operations in the transportation and delivery of ice by reducing the frequency of deliveries, whether wholesale, retail or "commercial". In Toledo all deliveries will be made only on Mondays, Tuesdays, Thursdays, Fridays, and Saturdays, except that "commercial" deliveries will be made on Wednesdays and Sundays to hospitals and to others where necessary for the preservation of perishable food in transit. Wholesale deliveries will be made on Wednesdays and Sundays only to cash-and-carry stations where required by limited storage space. Wholesale, retail and "commercial" deliveries will be made without exception in the other towns served as follows: In Holland and Sylvania, Ohio, on Mondays, Tuesdays, Thursdays, Fridays, and Saturdays; in Bono, Curtice, Harber View, Maumee, Trilby, and Williston, Ohio, on Mondays, Wednesdays, Fridays, and Saturdays; in Bay Shore, French Town, Monclova, Perrysburg, Reno Beach, Rocky Ridge, Waterville, and Whitehouse, Ohio, on Mondays, Tuesdays, Thursdays, and Saturdays; in Clay Center and Genoa, Ohio, on Tuesdays, Thursdays, and Saturdays; in Alliston and Martin, Ohio, on Mondays and Fridays; and in Ida, Samaria, and Temperance, Michigan, on Mondays, Wednesdays, Thursday, Fridays, and Saturdays. It is estimated that effectuation of the plan will result in savings of 132,000 truck-miles a year.

It appearing that the proposed joint action plan is in conformity with General Order ODT 17, as amended, and that the effectuation thereof will accomplish substantial conservation and efficient utilization of motor trucks and vital materials and supplies, the attainment of which purposes is essential to the successful prosecution of the war, I have approved the plan and recommend that the Chairman of the War Production Board find and certify under section 12 of Public Law No. 603, 77th Congress (56 Stat. 357), that the doing of any act or thing, or the omission to do any act or thing, by any person in compliance with said joint action plan, is requisite to the prosecution of the war.

NORTH AMERICAN LIGHT AND POWER CO., ET AL.

MEMORANDUM FINDINGS, OPINION AND ORDER APPROVING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 26th day of August 1943.

In the matter of North American Light & Power Company, File No. 54–50; North American Light & Power Company Holding-Company System and The North American Company, File No. 59–39; and The North American Company, et al., File No. 59–10.

Pursuant to our order of December 30, 1941, in the matter entitled North American Light & Power Company Holding Company System, and The North American Company (Holding Company Act Release No. 3233), requiring the liquidation of North American Light & Power Company (Light & Power) and the termination of its existence, Light & Power, a registered holding company and its sub-

sidiary, Illinois Traction Company (Traction), also a registered holding company, and Western Illinois Ice Company (Western), a wholly-owned non-utility subsidiary of Traction, engaged in the manufacture, storage and sale of ice have jointly filed application No. 6 and an amendment thereto under sections 9 (a), 10, 11 (b) and 12 (b), 12 (e) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-42, U-43, and U-45 thereunder.

Said filing requests our approval of (1) the sale of all of the common stock of Western (1,500 shares) presently owned by Traction to Light & Power for $93,000 and (2) the payment by Western of all of its cash in banks as of June 1, 1943 (estimated at approximately $47,000) to Light & Power in reduction of the 7% income note of Western held by Light & Power on which there is an unpaid balance of $425,000, and (3) the surrender by Light & Power of said income note in its reduced amount to Western as a contribution to surplus in the approximate amount of $378,000, and upon the completion of the above recited transactions, (4) the sale by Light & Power to Union Service Corporation, a non-affiliated non-utility company, of the said 1,500 shares of the common stock of Western for a cash consideration of $93,000. The net result of these transactions is the transfer of all of the common stock of Western from Traction to Union Service Corporation, for a consideration of $93,000 cash and the relinquishing of Light & Power's claim for the balance due on the note after receipt of all of the cash of Western in banks as of June 1, 1943. Traction proposes to use a portion of the proceeds to retire the 217 shares of its cumulative preferred $100 par value 6% stock outstanding, 210 shares being held by the public and 7 shares by Light & Power. The matter of the retirement of Traction's outstanding preferred stock will be the subject of a separate application. This matter is not before us at this time and we make no findings as to the propriety of the contemplated use of the proceeds.

A public hearing has been held on said application after appropriate notice. Having examined the record, we find that no adverse findings are necessary under the applicable sections of the Act and the Rules promulgated thereunder, and that the transactions proposed are necessary to effectuate the provisions of section 11 (b) of said Act and our order of December 30, 1941, and are fair and equitable to the persons affected thereby.

It is therefore ordered, That the transactions proposed in application No. 6, as amended, be and are hereby approved as submitted, subject, however, to the provisions of Rule U-24. We reserve jurisdiction to determine the use of the proceeds of the sale received by Traction pending the filing of a separate application.

By the Commission.

EXCEPTING CERTAIN PERSONS FROM THE CLASSIFICATION OF "ALIEN ENEMY" FOR THE PURPOSE OF PERMITTING THEM TO APPLY FOR NATURALIZATION

WHEREAS section 326 of the Nationality Act of 1940, approved October 14, 1940 (54 Stat. 1150; U.S.C., title 8, sec. 726), reads as follows:

"Sec. 326. TITLE 7—AGRICULTURE

Chapter III—Bureau of Entomology and Plant Quarantine

[Reg. 7,[2] Amdt. 5]

PART 321—RESTRICTED ENTRY ORDERS

FOREIGN POTATOES

Introductory Note: Amendment No. 4 of Regulation 7, effective June 15, 1943, withdrew authorization for the entry of potatoes from the State of Chihuahua, Mexico, on account of the danger of introducing the potato weevil, *Epicaerus cognatus* Sharp, and at the same time authorized entry of potatoes from the State of Guanajuato, Mexico, field examinations there having indicated the absence of this potato pest and other injurious insect pests and potato diseases which are the subject of these regulations. On the basis of similarly favorable reports from surveys made in the States of Chiapas, Jalisco, Queretaro, and San Luis Potosi, provision is now made by further amendment of Regulation 7 for potato importations from these four States. As a further measure of protection the certificate of inspection referred to in Regulation 5 will be required with importations of potatoes from Mexico.

§ 321.8 *Special provision for the importation of potatoes from the Dominion of Canada and Bermuda, the States of Chiapas, Guanajuato, Jalisco, Queretaro, San Luis Potosi, and Sonora, Mexico, and the Northern Territory of Baja California, Mexico, into the United States.* Potatoes may be imported from the Dominion of Canada and Bermuda into the United States or any of its Territories or Districts, free of any restrictions whatsoever, until otherwise ordered, under the Plant Quarantine Act of August 20, 1912.

Importations from the State of Sonora, Mexico, will be permitted to enter through the ports of Douglas, Naco, and Nogales, Ariz., and such other ports as may be designated in the permit; importations from the States of Chiapas, Guanajuato, Jalisco, Queretaro, and San Luis Potosi, Mexico, will likewise be permitted to enter through these ports and, in addition, through the ports of Brownsville, Laredo, Eagle Pass, and El Paso, Tex., and such other ports as may be designated in the permit.

Importations from the Northern Territory of Baja California, Mexico, will be permitted to enter through the ports of Calexico and San Ysidro, Calif., and such other ports as may be designated in the permit.

Importations of potatoes thus authorized entry from Mexico shall be in compliance with the provisions of §§ 321.2 to 321.7 inclusive (Regulations 1 to 6), of the regulations governing the importation of potatoes into the United States.

This amendment shall be effective on and after September 1st, 1943.

§ 1410.18 *Beef required to be set aside*—(a) *Quantity; storage; packaging.* Every Class 1 slaughterer shall set aside, reserve, and hold for delivery to the Army, Navy, Marine Corps and Coast Guard of the United States, War Shipping Administration, and contract schools and ship operators as defined in Food Distribution Regulation 2 (8 F.R. 7523) and subject to the provisions thereof, 45 percent of the conversion weight of each week's production of beef obtained from the slaughter of steers and heifers, the carcasses of which meet Army specifications for carcass beef or frozen boneless beef. Such beef shall be stored in such a manner as to maintain the quality thereof, and shall be prepared and packaged in accordance with Army specifications.

(b) *Permissible deliveries; credits.* Any beef, of the class and grade required to be set aside, delivered to any person or agency specified in (a) hereof, or any such beef which has been stamped by a representative of the United States Army and delivered to any processor for use in

(d) *Conversion weight.* For the purposes of this order conversion weights shall be computed in accordance with the provisions of § 1410.17 (p) of Director Food Distribution Order No. 75–1 (8 F.R. 11327).

Once the housing has been occupied the National Housing Agency has no jurisdiction over changes in the rent chargeable or the facilities, equipment and services which owners shall furnish. After initial occupancy, all such matters are within the jurisdiction of the Office of Price Administration.

(c) The local offices of the Federal Housing Administration shall, in certifying as eligible a project described in a PD–105, determine that the accommodations proposed to be provided are suitable for the persons for whom intended and that the total monthly payment stated in the application is consistent with the accommodations described therein.

(d) When local FHA offices are unable to determine any question of interpretation of this regulation, they may refer the case to the NHA regional representative for decision. Such references should be accompanied by a full statement of all the facts and circumstances relevant to the case, together with recommendations.

§ 702.29 *Tenant's responsibility.* Although landlords are responsible for maintaining the construction, equipment and condition of private war housing, none of the provisions of this regulation shall be interpreted as relieving the tenant from legal liability for waste.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

[Order 4]

PART 601— ADMINISTRATIVE; GENERAL

LIMITED DISTRIBUTION OF ANTHRACITE TO CONSUMERS

Determining areas and times within which limited distribution of anthracite coal to consumers shall be made and the amount of anthracite available for that purpose.

The Solid Fuels Administrator for War has issued Revised Regulation No. 2 which makes provision for more equitable distribution of anthracite coal by wholesalers to equipped and unequipped retail dealers. In order to assure more equitable distribution of anthracite among consumers who use anthracite for space heating, domestic hot water and cooking purposes, it appears that some limitations should be imposed on the amount of anthracite which may be delivered to such consumers.

However, before any governmental program for limited distribution of anthracite coal to consumers may be instituted, it is for the Solid Fuels Administration for War to determine, pursuant to section 3 (g) of Executive Order No. 9332, the areas and times within which limited distribution should be effective and the available supply of anthracite for that purpose.

Accordingly, this order is issued pursuant to the provisions of Executive Order No. 9332 and in accordance with Solid Fuels Administration for War Revised Regulation No. 2.

§ 601.21 *Definitions.* (a) "Anthracite" means that coal which is generally referred to as Pennsylvania anthracite and is produced in the following counties in Pennsylvania: Carbon, Columbia, Dauphin, Lebanon, Lackawanna, Luzerne, Northumberland, Schuylkill, Susquehanna and Wayne.

(b) "Consumer" means any person who acquires anthracite coal for space heating, domestic hot water or domestic cooking except to the extent that he acquires anthracite coal for use in an industrial process, for the production of power, or for space heating which is incidental thereto.

§ 601.22 *Determinations.* After advising with the War Production Board:

(a) It is hereby determined that the areas within which the limited distribution of anthracite to consumers should be effective are: the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia and the District of Columbia.

(b) It is hereby determined that the times within which the limited distribution of anthracite to consumers should be effective are from September 1, 1943 to December 1, 1943, inclusive, subject to further order of the Solid Fuels Administrator for War.

(c) It is hereby determined that the amount of anthracite available for limited distribution to consumers during the period provided in this order is approximately 11,000,000 tons for all destinations in the aggregate.

§ 601.23 *Coordination of program for limited distribution to consumers with regulations of Solid Fuels Administration for War.* This order does not authorize any action inconsistent with Solid Fuels Administration for War Revised Regulation No. 2, any amendments thereof, or any other action which may be taken by the Solid Fuels Administration for War pursuant to Executive Order No. 9332.

This order shall take effect at 12:01 a. m., September 1, 1943.

Issued this 27th day of August 1943.

HAROLD L. ICKES,
Solid Fuels Administrator for War.

[Reg. 2, Revised]

PART 602—GENERAL ORDERS AND DIRECTIVES

PENNSYLVANIA ANTHRACITE

The marked increase in fuel requirements incident to the wartime economy of the Nation threatened shortages and inequitable distribution of certain sizes of anthracite coal. Accordingly, Solid Fuels Administration for War Regulation No. 2 was issued on June 19, 1943 (8 F.R. 8663); and that regulation was amended on July 13, 1943 (8 F.R. 9744). It now appears necessary, in order to effectuate the purposes of Executive Order No. 9332, to revise Solid Fuels Administration for War Regulation No. 2, as amended, in various respects, including the insertion of provisions (a) modifying the emergency distribution requirements imposed by the regulation and making the regulation applicable to the period from April 1, 1943 to March 31, 1944, inclusive; (b) setting forth a method for securing additional anthracite for wholesalers whose tonnage of anthracite is insufficient to supply 90 per cent of the shipments to their customers during the base period; (c) requiring equitable distribution to unequipped retail dealers; and (d) subjecting to the regulation the distribution of No. 1 buckwheat and No. 2 buckwheat (rice). Accordingly, §§ 602.11 to 602.19, inclusive, of Solid Fuels Administration for War Regulation No. 2, as amended, are hereby superseded and revised to read as follows:

§ 602.3 *Definitions.* For purposes of this regulation:

(a) "Anthracite" means that coal which is generally referred to as Pennsylvania anthracite and is produced in the following counties in Pennsylvania: Carbon, Columbia, Dauphin, Lebanon, Lackawanna, Luzerne, Northumberland, Schuylkill, Susquehanna, and Wayne; and is limited to the sizes generally known as egg, stove, chestnut, pea, No. 1 buckwheat and No. 2 buckwheat (rice).

(b) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons.

(c) "Producer" means any person engaged in the business of mining or preparing anthracite.

(d) "Wholesaler" means any producer who sells anthracite to equipped retail dealers or unequipped retail dealers; any person who purchases and resells anthracite to equipped retail dealers; any person, except an equipped retail dealer, who purchases anthracite for resale to unequipped retail dealers; and any dock operator to the extent that he purchases and resells anthracite to persons other than the consumers thereof.

(e) "Equipped retail dealer" means any person who has storage facilities and truck scales, and who purchases anthracite from wholesalers for resale to consumers or unequipped retail dealers.

(f) An "unequipped retail dealer" means any person who is not an equipped retail dealer and who purchases anthracite from producers, wholesalers, or equipped retail dealers for resale to consumers.

(g) "Excess tonnage" means all tonnage of anthracite which exceeds 90 per cent of the tonnage of anthracite shipped to destinations, equipped retail dealers and unequipped retail dealers, during the base period as contemplated by the provisions of § 602.4 of this regulation.

(h) "Deficiency in tonnage" means the tonnage of anthracite which is less than 90 per cent of the tonnage of anthracite shipped to destinations, equipped retail dealers and unequipped retail dealers during the base period as contemplated by the provisions of § 602.4 of this regulation.

(i) "Consumer" means any person who acquires anthracite coal for space heating, domestic hot water or domestic cooking except to the extent that he acquires anthracite coal for use in an industrial process, for the production of power, or for space heating which is incidental thereto.

(j) "Destination" means any city, town, village, or community: *Provided, however,* That in respect to shipments to New York City, the boroughs of Manhattan and Bronx, as a unit, Brooklyn and Queens, as a unit and the borough of Richmond shall be treated as three separate destinations.

(k) "Base period" means the period from April 1, 1942 to March 31, 1943, inclusive.

§ 602.4 *Restrictions on shipments by wholesalers.* (a) All wholesalers (including producers who sell to equipped retail dealers or unequipped retail dealers) shall forthwith arrange their distribution schedules in respect to rail, water, truck and other movements so that by March 31, 1944, and on the basis of regular equal monthly shipments so far as practicable, they shall have supplied to the same destinations, equipped retail dealers, and unequipped retail dealers, to which they shipped anthracite during the base period, the same proportion of available tonnage, up to but not in excess of 90 per cent thereof, shipped to such destinations, equipped retail dealers and unequipped retail dealers during the base period. In arranging their distribution schedules wholesalers shall disregard the sequence in which orders on hand were received and shall afford preferences to orders from destinations, equipped retail dealers and unequipped retail dealers, which have not received from them during the period April 1, 1943, to the end of any calendar month commencing with August 31, 1943, the same proportions of tonnages (as compared with other destinations, equipped retail dealers and unequipped retail dealers) which they received from such wholesalers during the corresponding portion of the base period. In affording such preferences, wholesalers shall, so far as practicable, take, on a pro rata uniform percentage basis, the tonnage required to meet the preference orders from the non-preference orders of contract and non-contract customers. In complying with the provisions of this paragraph each wholesaler shall (1) consider all anthracite shipped subsequent to April 1, 1943, as part of the total tonnage required to be shipped by him during the entire period April 1, 1943 to March 31, 1944, inclusive, and (2) exclude tonnage excepted from this regulation pursuant to § 602.8.

(b) Each wholesaler shall report in writing to the Solid Fuels Administrator for War at Washington, D. C., on or before the 25th day of each month his actual tonnage shipped during the preceding full calendar month and his anticipated available tonnage for the succeeding full calendar month. The report shall set forth the tonnage of egg, stove, nut and pea as a single total covering domestic sizes and separately set forth the tonnage of buckweat and rice as a single total covering steam sizes. Each wholesaler whose anticipated available tonnage for the succeeding month is in excess of the maximum tonnage which may be shipped under § 602.4 (a) shall make all such excess tonnage available in equal weekly portions for allocation by the Solid Fuels Administrator for War. The Solid Fuels Administrator for War will allocate such excess tonnage currently to wholesalers with a deficiency in tonnage within the meaning of this regulation. Anthracite so allocated by the Solid Fuels Administrator for War shall be shipped for the account of the wholesaler to whom it is allocated in order that there may be equitable distribution to all destinations and equipped retail dealers.

If, but only if, the necessity of obtaining an adequate car supply so requires, a wholesaler with excess tonnage may, prior to the receipt of shipping instructions from a wholesaler to whom such excess tonnage has been allocated by the Solid Fuels Administrator for War, ship excess tonnage, to the extent necessary to relieve the car supply problem, to any destination or equipped retail dealer he wishes. Any wholesaler who takes such action shall forthwith notify the Solid Fuels Administrator for War by telegram of the circumstances necessitating the action, the tonnage shipped and the destination and equipped retail dealer to which the tonnage was shipped.

(c) Producers, wholesalers and equipped retail dealers shall forthwith

arrange their distribution schedules so that for the period April 1, 1943 to March 31, 1944, inclusive, they shall have supplied to each unequipped retail dealer to whom they sold anthracite during the base period, the same proportion of available tonnage up to but not in excess of 90 per cent thereof, of the tonnage sold to each such unequipped retail dealer during the base period.

§ 602.5 *Limitations of deliveries to consumers expected.* In addition to this regulation and in order to assure a more equitable distribution of anthracite among consumers, the Solid Fuels Administrator for War plans, pursuant to section 3 (g) of Executive Order No. 9332, to determine, immediately after the issuance of this regulation, the areas and times within which limitations of deliveries of anthracite to consumers should be effective and the amount of anthracite available for such limited distribution. It is expected that the program for limited distribution of anthracite to consumers will be administered by the Office of Price Administration, pursuant to directive of the War Production Board and subject to the determinations of the Solid Fuels Administrator for War under section 3 (g) of Executive Order No. 9332.

§ 602.6 *Action under other regulations.* Nothing contained in this regulation shall be deemed to preclude the Solid Fuels Administrator for War from taking appropriate action under Solid Fuels Administration for War Regulation No. 1 or under any other regulation heretofore or hereafter promulgated by him.

§ 602.7 *Directives under Solid Fuels Administration for War Regulation No. 1.* Directives heretofore and hereafter issued by the Solid Fuels Administrator for War under Solid Fuels Administration for War Regulation No. 1 shall be complied with notwithstanding the provisions of this regulation.

§ 602.8 *Limitations upon applicability of this regulation.* This regulation shall not be applicable to and shall not in any wise be deemed to restrict shipments of anthracite to the Army, Navy, Marine Corps, Coast Guard of the United States, the Maritime Commission or the War Shipping Administration; or to any industrial plant for use in the process of manufacturing or generating steam for industrial use; or to any person for use in chicken brooders or hatcheries. In the computation of available tonnage and required shipments pursuant to this regulation all such excepted shipments shall be excluded.

§ 602.9 *Evasion prohibited.* All persons are prohibited from evading any of the provisions of this regulation in reliance upon a reincorporation, reorganization, contract, arrangement or device of any kind occurring prior or subsequent to the effective date of this regulation, and the successor in interest of any person shall be deemed fully bound by the provisions of this regulation with the same force and effect as though the predecessor had remained in existence. No person, subject to this regulation, shall change his method of doing business for the purpose of evading any of the provisions of this regulation and no such person shall continue any such evasive practice which may have been entered into subsequent to April 1, 1943. C.

§ 602.10 *Regional Anthracite Distribution Committees; National Anthracite Distribution Committee; Supply and Distribution Committee.* (a) The Regional Anthracite Distribution Committee created for each of the regions defined and set forth in Appendx A, attached hereto, and made a part hereof, shall continue to advise with and make recommendations to the Solid Fuels Administrator for War with reference to the administration of the provisions of this regulation for their respective regions. It shall be the function of the Supply and Distribution Committee to recommend to the Solid Fuels Administrator for War the allocations of excess tonnage which should be made in order to carry out the purposes and provisions of this regulation.

§ 602.11 *Requests by dealers for supply of anthracite to meet additional needs.* Any dealer requesting a supply of anthracite in excess of 90 per cent of the requirements of any destination or dealer during the base period in order to take care of additional needs resulting from increased population at any destination and the anthracite requirements thereof, shortage of other fuels and conversions of burning equipment, and other causes, shall submit an original and one copy of such request in writing to the Regional Anthracite Distribution Committee which under the supervision and direction of the regional representative of the Solid Fuels Administrator for War shall act upon such requests in a manner consistent with this regulation, and in appropriate cases shall recommend to the National Anthracite Distribution Committee that the matter be referred to the Solid Fuels Administrator for War in Washington, D. C. for appropriate action. Each such request referred to the Solid Fuels Administrator for War in Washington, D. C. shall be accompanied by the recommendation of such committees and the independent recommendation of the regional representative of the Solid Fuels Administrator for War.

PART 1010—SUSPENSION ORDERS

[Amdt. 1 to Suspension Order S-347]

AAA ACE BALING WIRE CO.

On June 19, 1943 Suspension Order S-347 was issued against Harry Rosenbaum, doing business as AAA Ace Baling Wire Company, of Philadelphia, Pennsylvania. It was provided that the order should take effect on June 21, 1943 and expire October 21, 1943. The company appealed from the suspension order, raising for the first time the point that its baling machines were not covered by General Limitation Order L-83. Respondent was granted a rehearing, which took place before a Compliance Commissioner of the War Production Board on July 24, 1943, and the Compliance Commissioner determined that the baling machines in question were covered by the terms of L-83. On July 22, 1943 the Chief Compliance Commissioner had directed a stay of execution of the suspension order pending final disposition of the appeal. Subsequent to the rehearing, on August 9, 1943, the Chief Compliance Commissioner denied the respondent's appeal, and directed that the stay should be of no force or effect after August 16, 1943. He further directed that paragraph (e) of Suspension Order S-347 be amended so as to provide that the expiration date should be November 10, 1943 instead of October 21, 1943, so as to compensate for the time that the Stay was in effect.

In view of the foregoing, it is hereby ordered, that paragraph (e) of § 1010.347, Suspension Order S-347, issued on June 19, 1943, be and hereby is amended to read as follows:

(e) This order shall take effect June 21, 1943 and expire November 10, 1943, after which latter date it shall have no further force or effect.

Issued this 28th day of August 1943.

PART 3133—PRINTING AND PUBLISHING

[Conservation Order M-339]

COPPER AND ZINC FOR PRINTING PLATES

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of copper, zinc and paper for the production of printed matter for defense; for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3133.30 *Conservation Order M–339*—(a) *Definitions.* Meaning of terms used in this order:

(1) A person "uses" copper, copper-base alloy, copper scrap, copper-base alloy scrap, or zinc when he first changes its form or shape in the production of printing plates by putting it into an electrolytic bath or etching or engraving it or re-using it in any way.

(2) The term "copper" as used hereafter includes copper, copper-base alloy, copper scrap and copper-base alloy scrap.

(3) The term "printing plate" means any kind or shape of printing or marking plate containing copper or zinc except plates made in plants or offices whose sole processing of plates is for use in connection with office machinery as listed in General Limitation Order L–54–c as amended from time to time.

(b) *Limitation on the use of zinc.* (1) In any calendar quarter after the second quarter of 1943, no person shall use more zinc in the production of printing plates than 50%, by weight, of the zinc which he used in the production of such plates during the same quarter of 1941. However, a person may use an additional 15% during one calendar quarter if he uses that much less during the next quarter. Also, if he uses less than this order allows for one quarter, he may increase his use in the next quarter by that amount.

(2) No person shall deliver zinc to any plate-maker and no plate-maker shall accept zinc, except to fill an order carrying an authorized preference rating of AA–5 or higher.

(c) *General Limitations on the use of copper.* In any calendar quarter after the second quarter of 1943, no person shall use more copper in the production of printing plates than 60%, by weight, of the copper which he used in the production of such plates during the same quarter of 1940. However, a person may use an additional 15% during one calendar quarter if he uses that much less during the next quarter. Also, if he uses less than this order allows for one quarter, he may increase his use in the next quarter by that amount.

(d) *Further provisions regarding the use of copper in certain processes*—(1) *Photoengraving.* In order to liquidate inventories of 16-gauge photoengravers' sheet copper which are now in the possession of photoengravers and suppliers, 25 percent of the weight of any copper finished as 16-gauge photoengravers' sheet before July 1, 1943 which a photoengraver uses after that date, shall not be counted in computing his allowed usage under paragraph (c) of this order. In other words, a photoengraver may use four pounds of such 16-gauge copper but he need charge only three pounds of the four against his allowable usage.

(2) *Electrotyping and gravure platemaking.* (i) For the third calendar quarter of 1943, three pounds or more out of every four pounds of copper used for electrotyping and gravure platemaking must be in the form of old printing plates or other copper scrap derived from plate-making operations. For the fourth calendar quarter of 1943 and for each calendar quarter after that, one pound or more out of every two pounds of copper used for electrotyping and gravure plate-making must be in the form of old printing plates or other copper scrap derived from plate-making operations.

(ii) If, in any calendar quarter, 95% or more of the copper which a person uses for electrotyping and gravure platemaking is in the form of old plates or other scrap derived from plate-making operations, he will be allowed a "bonus" equal to 10% of the copper which he used in that quarter for electrotyping and gravure plate-making. This "bonus" must be used in the form of old plates or other scrap derived from plate-making operations. It may not be used after the end of the quarter following the one in which it was "earned."

(iii) The delivery, acceptance and use of copper scrap for electrotyping and gravure plate-making, even when the scrap results from the plate-making operations of a person's own plant, is subject to approval under Supplementary Order M–9–b as amended from time to time.

(3) *Copperplate engraving.* (i) A person's entire allowable usage of copper for copperplate engravings must be composed of sheets which were in his possession on December 31, 1942 or old engraved plates, or a combination of the two.

(ii) Each copperplate engraver must deliver to a scrap dealer, or other person authorized by the War Production Board to accept the scrap, at least three pounds of old copperplate engravings for each pound of copper sheet or old engraved plates used by him in making new copperplate engravings. Such delivery must be made not later than fifteen days after the end of the calendar quarter in which the copper was used for this purpose. This paragraph exempts copperplate engravers from the provisions of Order M–9–b relating to the acceptance, delivery and use of old copperplate engravings in the production of new engraved plates.

(e) *Exceptions regarding copper and zinc.* (1) When plates are ordered by any department or agency of the United States Government or when plates are made exclusively for printed matter which is ordered directly from the producer of such printed matter, by any department or agency of the United States Government, the copper or zinc used in such plates need not be counted in estimating the plate-maker's allowable usage under paragraph (b) or (c) of this order if the purchase order is endorsed as provided in the following paragraph. This exemption shall not apply when the order for printed matter is placed by any person other than a department or agency of the United States Government even when the printed matter is delivered to such department or agency in the fulfillment of a government contract.

(2) Each person who orders plates for the purposes described in the first sentence of paragraph (e) (1) shall endorse on the purchase order for such plates a statement in substantially the following form signed manually, or as provided in Priorities Regulation No. 7 (§ 944.27), by an official duly authorized for such purpose:

The undersigned hereby certifies that the plates covered by this order are to be used in the production of printed matter as described in the first sentence of paragraph (e) (1) of Order M–339, such plates or printed matter being ordered, by a department or agency of the United States Government under Contract No. -------

---
Name of person.

Duly authorized official.

(3) The gross weight of copper and of zinc used to fill orders endorsed in the manner set forth in the previous paragraph shall be reported to the Printing and Publishing Division of the War Production Board once every calendar quarter. Persons who apply for copper on Form CMP 4B or for zinc on Form PD–1A shall make this report in a letter attached to such application. Persons who do not apply on these forms shall report by letter not later than fifteen days after the end of each calendar quarter. The report shall state the weight of the metal and whether it is copper, zinc or electrotyping metal. In the case of electrotyping metal, the gross weight of the plates, including backing metal, shall be stated. The original records must be kept on file as long as this order remains in force and for two years after that. This reporting provision has been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(f) *Effect of allocations, preference ratings, and inventories.* Notwithstanding any allocation number or symbol or any preference rating which may be extended to any person or which may be granted to any person on specific application or by any blanket symbol or rating procedure, the provisions of this order shall prevail with relation to the amount of copper and zinc which may be used by any person in the production of printing plates. The fact that a person has an inventory of copper or zinc, or an allocation or rating for copper or zinc, in excess of his allowable usage, or that he has received permission under Order M–9–b for the use of copper scrap does not justify his use of such copper or zinc in excess of his allowable usage as prescribed by this order.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected by it are subject to the regulations of the War Production Board, as amended from time to time.

(2) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provisions appealed from and stating fully the grounds of the appeal.

(3) *Communications to the War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Printing & Publishing Division, Washington, D. C. Ref.: M.–339.

(h) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 28th day of August 1943.

Recording Secretary.

CONFLICT IN PRODUCTION SCHEDULES OF CLASS A CIVILIAN TYPE END PRODUCTS

The following Interpretation 15 is issued with respect to CMP Regulation 1.

In § 3175.1 (a) paragraph (q) of CMP Regulation No. 1 provides that where a manufacturer discovers a conflict between accepted production schedules received from different persons, he should report the matter to the appropriate Industry Division (or Claimant Agency under certain circumstances) for instructions.

(b) Under the provisions of this paragraph, a manufacturer of a Class A civilian type end product who has received allotments and an authorized production schedule from various Claimant Agencies and from an Industry Division of the War Production Board, and who discovers, because of labor shortage, lack of capacity, delays in delivery of material, or other causes, that he is unable to meet both authorized production schedules, should report the details of this conflict to the appropriate Industry Division so it can furnish directions.

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD [1]

[Limitation Order L-120 as Amended August 28, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply for defense, for private account and for export, of wood pulp and other materials and facilities used in the manufacture and distribution of paper, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3281.15 [1] *Limitation Order L-120*—(a) *Issuance of schedules for the standardization and simplification of paper.* War Production Board may from time to time issue schedules prescribing simplified and standardized practices and specifications for the manufacture, put up and manufacturer's packaging of paper, with particular respect to grades, weights, sizes, colors, coatings finish, furnish, markings, minimum manufacturing quantities, quantity of sheets per unit, size and shape of roll or pack, and any other detail or condition of manufacture, put up or manufacturer's packaging. From and after the effective date of any such schedule, and until such schedule may expire by its own terms or be revoked by the War Production Board, no person shall manufacture any paper with respect to which such schedule prescribes such practices or specifications otherwise than according to such practices and specifications.

(b) *Appeals.* Any appeal from the provisions of this order or of any schedule hereto shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(c) *Applicability of regulations.* This order and all transactions affected by this order or any Schedule hereto are subject to all applicable regulations of the War Production Board, as amended from time to time, except to the extent of any inconsistency, in which event the provisions of this order or of such schedule shall govern.

(d) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Pulp and Paper Division, Washington 25, D. C. Ref: L-120.

(e) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD [1]

[Schedule I as Amended August 28, 1943 to Limitation Order L-120]

PAPER AND PAPERBOARD FOR USE IN COMMERCIAL PRINTING

§ 3281.17 *Schedule I to Limitation Order L-120*—(a) *Definitions.* For the purpose of this schedule, including the Appendix:

(1) The term "paper and paperboard" means and is limited to the kinds of paper and paperboard commonly described and distributed in the paper trade by the names used as captions in the Appendix below.

(2) The term "paper and paperboard for use in commercial printing" means all paper and paperboard commonly manufactured and distributed for use in printing, including but not limited to the printing of house organs, music, labels and posters; and excluding only those manufactured and distributed for use in printing newspapers and magazines, pamphlets published for resale, and books, or for conversion into another paper product or products otherwise than by printing.

(3) A "grade" means one particular quality within a kind of paper or paperboard such grade having the essential properties peculiar to such kind and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any common property is emphasized, due only to a difference in ash content, in sizing, in the quantity of adhesive in the coating formula, or in the dyes used in the paper or paperboard, or coating shall not be considered as resulting in a different grade.

(4) "Color" means any hue of the spectrum, including but not limited to ivory, india and green-white tints, and black, but not including white.

(5) The term "basis weight" means the weight in pounds per 500 sheets in the size indicated under the appropriate caption, or the equivalent weight of 500 sheets in any other size figured proportionately to the size specified.

(6) The term "thickness" means the thickness of a sheet of paper or paperboard expressed either in terms of plies or in terms of thousandths of an inch measured by the Cady Micrometer.

(7) An "item" means a quantity of paper or paperboard all of which is of the same size, grain, basis weight, finish, color and grade.

(8) The term "standard" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, a grade and color selected and a basis weight or thickness, and size specified under A of the appropriate caption in the appendix below.

(9) The term "special" as applied to grade, color, basis weight, and size means, with respect to each manufac-

[1] Formerly § 1223.1 of Part 1223.

[1] Formerly § 1223.2 of Part 1223.

turer, any grade, color, basis weight, thickness or size that is not standard.

(10) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one printer or consumer.

(11) The term "manufacture" includes all making and finishing operations prior to packaging or packing, including pasting whether by a primary manufacturer or otherwise.

(12) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other forms of enterprise subject to a common executive or operating management or with a common sales organization.

(b) *Identification of the papers or paperboards subject to this schedule.* It shall be the duty of each person who manufactures paper or paperboard to determine in the first instance, but subject to review and official classification by the War Production Board at any time thereafter, under which caption, if any, of the Appendix belongs each of the "paper and paperboard for use in commercial printing" manufactured by him. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board the designation by which the manufacturer heretofore identified or distributed the paper or paperboard in question, the common designation in the paper trade of similar papers or paperboards selling within the same general price range as the paper or paperboard in question, and the common designation in the paper trade of papers or paperboards possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper or paperboard in question. If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "paper or paperboard for use in commercial printing", or whether a particular kind of paper or paperboard is such a paper or paperboard at all or belongs under any caption of the Appendix to this schedule, he may apply to the War Production Board, in writing, for an official classification of such paper or paperboard, submitting with his application representative samples of the grade or grades in which he manufactures such paper or paperboard, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of paper or paperboard with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefore an official classification. In any event, an official classification by the War Production Board by telegram or notice in writing sent to the manufacturer, shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *Selection of grades for regular manufacture.* Each person who manufactures any kind of "paper or paperboard for use in commercial printing", shall select such "grade" or "grades" (if selection is indicated under the appropriate caption and has not already been made by him), not to exceed the number specified in A (1) of the appropriate caption of the Appendix below, as he may desire to adopt for regular manufacture, and shall forthwith notify the War Production Board of such selection on Form WPB 1295 (formerly PD-589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board, in writing, the original selection shall remain binding.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) under the appropriate caption of the Appendix below a manufacturer is permitted with respect to a particular grade of a kind of "paper and paperboard for use in commercial printing", to select a number of colors and such selection is indicated and has not already been reported by him, each person desiring to manufacture such grade in colors shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the appropriate caption, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD-589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing, the original selection shall remain binding.

(e) *General limitations.* No person shall manufacture any kind of "paper or paperboard for use in commercial printing" in any grade, color, basis weight, or size other than those specified or selected as standard under A of the appropriate caption of the Appendix (where such standards are specified or selected under A of the appropriate caption), or contrary to any other provision under the appropriate caption. This general rule is, however, subject to the following exceptions:

(1) Tolerances and variations are permitted to the extent provided in paragraph (f).

(2) Cutting and slitting to various sizes are permitted to the extent provided in paragraph (g).

(3) Special provision is made for "jobs" and "seconds" in paragraph (h).

(4) Special provision is made for export orders in paragraph (i).

(5) Exceptions are made for "special making orders" under certain captions of the Appendix. However, regardless of these exceptions where special making orders are so permitted under any caption, the basis weight or thickness must not exceed the heaviest standard basis weight or thickness permitted under A of such caption.

(6) Paper or paperboard in process of manufacture on September 1, 1943, and conforming to the requirements of this order prior to the amendment effective that date, may be completed otherwise than by pasting.

(7) Paper or paperboard may be manufactured in any basis weight or thickness permitted for a particular use by any subsequent order, provided the basis weight or thickness does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such subsequent order are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of the kind of paper or paperboard under each caption and to the normal variations in quantity manufactured customarily acceptable in the paper trade for such kind. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for rolls; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions, if any, applying to a "special size" under B of the appropriate caption in the Appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds" resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona fide attempt to manufacture "paper and paperboard" according to the terms of this revised schedule, provided that the manufacturer clearly informs the purchaser that such paper or paperboard is a "job lot" or "seconds" and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L-120, a person may manufacture for export (but may not without permission in writing from the War Production Board sell in the domestic market) any "kind" of "paper or paperboard for use in commercial printing" in any size, basis weight or thickness required, regardless of quantity, provided all other provisions of this schedule are complied with and (if the basis weight or thickness is heavier than permitted) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(j) *Records and reports.*—(1) *Standard samples.* Each person who manufactures any kind of "paper or paperboard for use in commercial printing" shall keep, readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the appropriate caption.

(2) *Special making orders.* On and after September 1, 1943, each person who manufactures any "special making order" permitted under B of the appropriate caption of the Appendix below shall require from the buyer a statement to the effect that such order is purchased for use by one printer or consumer, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943 each person who manufactures "paper or paperboard for use in commercial printing" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Effective date.* This revised schedule shall take effect on September 1, 1943.

NOTE: The reporting requirements of paragraphs (c) and (d) have been approved by the Bureau of the Budget pursuant to the Federal Reporta Act of 1942.

Issued this 28th day of August 1943.

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD [1]

[Schedule II as to Limitation Order L-120 Amended August 28, 1943]

PAPER FOR USE IN BOOK PUBLISHING

§ 3281.18 [1] *Schedule II to Limitation Order L-120*—(a) *Definitions.* For the purpose of this schedule, including the Appendix:

(1) The term "paper" means and is limited to the kinds of paper commonly described and distributed in the paper trade by the names used as captions in the Appendix below.

(2) The term "paper for use in book publishing" means all "paper" commonly manufactured and distributed for use in books and in publishing pamphlets for resale.

(3) A "grade" means one particular quality within a kind of paper, such grade having the essential properties peculiar to such kind of paper and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any such property is emphasized, due only to a difference in ash content, in sizing, in the quantity of adhesive in the coating formula, or in the dyes used in the paper or coating shall not be considered as resulting in a different grade.

[Paragraphs (a) (1), (2) and (3) amended August 28, 1943.]

(4) "Color" means any hue of the spectrum, including but not limited to ivory india and green-white tints, and black, but not including white.

(5) The term "basis weight" means the weight of a kind of paper in pounds per 500 sheets in the size indicated under the appropriate caption, or the equivalent weight of 500 sheets in any other size figured proportionately to the size specified.

(6) An "item" means a quantity of paper all of which is of the same size, grain, basis weight, finish, color and grade.

(7) The term "standard" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, a grade and color selected and a basis weight and size specified under A of the appropriate caption in the Appendix below.

(8) The term "special" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, any grade, color, basis weight or size that is not standard.

(9) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one printer or publisher.

(10) The term "manufacture" includes all making and finishing operations prior to packaging or packing, including pasting whether by a primary manufacturer or otherwise.

(11) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other forms of enterprise subject to a common executive or operating management or with a common sales organization.

(b) *Identification of the papers subject to this schedule.* It shall be the duty of each person who manufactures paper to determine in the first instance, but subject to review and official classification by the War Production Board at any time thereafter, under which caption of the Appendix, if any, belongs each of the "papers for use in book publishing" manufactured by him. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board, the designation by which the manufacturer heretofore identified or distributed the paper in question, the common designation in the paper trade of similar papers selling within the same general price range as the paper in question, and the common designation in the paper trade of papers possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper in question. If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "paper for use in book publishing", or whether a particular kind of paper is such a paper at all or belongs under any caption of the Appendix to this schedule, he may apply to the War Production Board, in writing, for an official classification of such paper, submitting with his application representative samples of the grade or grades in which he manufactures such paper, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of papers with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefor an official classification. In any event, an official classification by the War Production Board by telegram or notice in writing sent to the manufacturer shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

[Paragraph (b) amended August 28, 1943.]

(c) *Selection of grades for regular manufacture.* Each person who manufactures any kind of "paper for use in book publishing" shall, with respect to each such kind he manufactures select

[1] Formerly Part 1223, § 1223.3.

such "grade" or "grades" thereof (if such selection is indicated under the appropriate caption and has not already been reported by him to the War Production Board), not to exceed the number specified in A (1) of the appropriate caption of the Appendix below, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD-589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) under the appropriate caption of the Appendix below a manufacturer is permitted, with respect to a particular grade of a kind of "paper for use in book publishing", to select a number of colors, and such selection is indicated and has not already been reported by him to the War Production Board, each person desiring to manufacture such grade in colors shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the appropriate caption, as he may desire to adopt for regular manufacture and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD-589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(e) *General limitations.* No person shall manufacture any kind of "paper for use in book publishing" in any grade, color, basis weight, or size other than those specified or selected as standard under A of the appropriate caption of the Appendix (where such standards are specified or selected under A of the appropriate caption), or contrary to any other provision under the appropriate caption. This general rule is, however, subject to the following exceptions:

(1) Any item the manufacture of which is permitted under Schedule I to Limitation Order L-120 may be manufactured for use in books or in publishing pamphlets for resale.

(2) Tolerances and variations are permitted to the extent provided in paragraph (f).

(3) Cutting and slitting to various sizes are permitted to the extent provided in paragraph (g).

(4) Special provision is made for "jobs" and "seconds" in paragraph (h).

(5) Special provision is made for export orders in paragraph (i).

(6) Exceptions are made for "special making orders" under certain captions of the appendix. However, regardless of these exceptions where special making orders are so permitted under any caption, the basis weight or thickness must not exceed the heaviest standard basis weight or thickness permitted under A of such caption.

(7) Paper in process of manufacture on September 1, 1943, and conforming to the requirements of this order prior to the amendment effective that date, may be completed otherwise than by pasting.

(8) Paper may be manufactured in any basis weight or thickness permitted for a particular use by any subsequent order, provided the basis weight or thickness does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such subsequent order are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of the kind of paper under each caption and to the normal variations in quantity manufactured customarily acceptable in the paper trade. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for roll paper; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions, if any, applying to a "special size" under B of the appropriate caption in the appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds", resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona fide attempt to manufacture paper according to the terms of this revised schedule, provided that the manufacturer clearly informs the purchaser that such paper is a "job lot" or "seconds" and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L-120, a person may manufacture for export (but may not without permission in writing by the War Production Board sell in the domestic market) any kind of paper for use in book publishing in any size or basis weight required, regardless of quantity, provided all other provisions of this schedule are complied with and (if the basis weight is heavier than permitted by this schedule) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(j) *Records and reports*—(1) *Standard samples.* Each person who manufactures any kind of "paper for use, in book publishing" shall keep readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the appropriate caption.

(2) *Special making orders.* On and after September 1, 1943, each person who manufactures any "special making order" permitted under B of the appropriate caption of the Appendix below shall require from the buyer a statement to the effect that such order is purchased for use by one printer or publisher, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943, each person who manufactures "paper for use in book publishing" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, and shall submit reports of such orders to the War Production Board as it may from time to time require.

(4) *Buyer's statement of use.* On and after September 1, 1943, each manufacturer, before filling any order for "paper for use in book publishing" manufac-

tured after September 1, 1943, shall require from the buyer a statement that such order is for use in books or in publishing pamphlets for resale, and shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board.

(k) This revised schedule shall take effect on September 1, 1943.

NOTE: The reporting requirements of WPB 1295 (formerly PD 589) have been approved by the Bureau of the Budget pursuant to Federal Reports Act of 1942.

Issued this 28th day of August 1943.

WAR PRODUCTION BOARD,

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD [1]

[Schedule III to Limitation Order L-120, as Amended August 28, 1943]

FINE WRITING PAPERS

§ 3281.19 [1] *Schedule III to Limitation Order L-120—*(a) *Definitions.* For the purpose of this schedule, including the Appendix:

(1) The term "fine writing papers" means and is limited to the kinds of paper commonly described and distributed in the paper trade by the names used as captions in the Appendix below.

(2) A "grade" means one particular quality within a kind of fine writing paper, such grade having the essential properties peculiar to such kind of paper and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any such property is emphasized, due only to a difference in ash content, in sizing, in the quantity of adhesive in the coating formula, or in the dyes used in the paper or coating shall not be considered as resulting in a different grade.

(3) "Color" means any hue of the spectrum, including but not limited to ivory, india and green-white tints, and black, but not including white.

NOTE: Former paragraphs (a) (5)-(a) (10) redesignated (a) (6)-(a) (11); paragraph (a) (5) added August 28, 1943.

(4) The term "substance weight" means the weight of a kind of fine writing paper in pounds per 500 sheets in the size indicated under the appropriate caption, or the equivalent weight of 500 sheets in any other size figured proportionately to the size specified.

(5) The term "thickness" means the thickness of a sheet of paper or paperboard expressed either in terms of plies or in terms of thousandths of an inch measured by the Cady Micrometer.

(6) An "item" means a quantity of paper all of which is of the same size, grain, substance weight, finish, color and grade.

(7) The term "standard" as applied to grade, color, substance weight, and size means, with respect to each manufacturer, a grade and color selected and a substance weight and size specified under A of the appropriate caption in the Appendix below.

(8) The term "special" as applied to grade, color, substance weight, and size means with respect to each manufacturer, any grade, color, substance weight or size that is not standard.

(9) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one printer, converter or consumer.

(10) The term "manufacture" includes all making and finishing operations prior to packaging or packing, including pasting whether by a primary manufacturer or otherwise.

(11) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other form of enterprise subject to a common executive or operating management or with a common sales organization.

(b) *Identification of the papers subject to this schedule.* It shall be the duty of each person who manufactures paper to determine in the first instance, but subject to review and official classification by the War Production Board at

[1] Formerly Part 1223, § 1223.4.

any time thereafter, under which caption of the Appendix, if any, belongs each of the "fine writing papers" manufactured by him. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board, the designation by which the manufacturer heretofore identified or distributed the paper in question, the common designation in the paper trade of similar papers selling within the same general price range as the paper in question, and the common designation in the paper trade of papers possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper in question. If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "fine writing paper," or whether a particular kind of paper is such a paper at all or belongs under any caption of the Appendix to this schedule, he may apply to the War Production Board, in writing, for an official classification of such paper, submitting with his application representative samples of the grade or grades in which he manufactures such paper, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of papers with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefor an official classification. In any event, an official classification by the War Production Board by telegram or notice in writing sent to the manufacturer shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *Selection of grades for regular manufacture.* Each person who manufactures any kind of "fine writing paper" shall with respect to each such kind he manufactures, select such "grade" or "grades" thereof (if such selection is indicated under the appropriate caption and has not already been reported by him to the War Production Board) not to exceed the number specified in A (1) of the appropriate caption of the Appendix below, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding. Each person who regularly manufactures any Extra 100 percent rag content grade of any kind of "fine writing paper" shall notify, as above, the War Production Board thereof on Form WPB 1295 (formerly PD–589), stating, in addition, in what respect each such grade differs from his standard 100 percent rag grade, and submitting with his statement representative samples of each such grade and a list of sizes, weights and colors regularly manufactured.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) under the appropriate caption of the Appendix below a manufacturer is permitted, with respect to a particular grade of a kind of "fine writing paper", to select a number of colors (each person desiring to manufacture such grade in colors and such selection is indicated and has not already been reported by him to the War Production Board), shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the appropriate caption, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(e) *General limitations.* No person shall manufacture any kind of "fine writing paper" in any grade, color, basis weight, or size other than those specified or selected as standard under A of the appropriate caption of the Appendix (where such standards are specified or selected under A of the appropriate caption), or contrary to any other provision under the appropriate caption. This general rule is, however, subject to the following exceptions:

(1) Tolerances and variations are permitted to the extent provided in paragraph (f).

(2) Cutting and slitting to various sizes are permitted to the extent provided in paragraph (g).

(3) Special provision is made for "jobs" and "seconds" in paragraph (h).

(4) Special provision is made for export orders in paragraph (i).

(5) Exceptions are made for "special making orders" under certain captions of the Appendix. However, regardless of these exceptions where special making orders are so permitted under any caption, the basis weight or thickness must not exceed the heaviest standard basis weight or thickness permitted under A of such caption.

(6) Paper or paperboard in process of manufacture on September 1, 1943, and conforming to the requirements of this order prior to the amendment effective that date, may be completed otherwise than by pasting.

(7) Paper or paperboard may be manufactured in any basis weight or thickness permitted for a particular use by any subsequent order, provided the basis weight or thickness does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such subsequent order are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of the kind of "fine writing papers" under each caption and to the normal variations in quantity manufactured customarily acceptable in the paper trade. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for rolls; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions, if any, applying to a "special size" under B of the appropriate caption in the Appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds", resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona-fide attempt to manufacture "fine writing paper" according to the terms of this revised schedule, provided that the manufacturer clearly informs the purchaser that such paper is a "job lot" or "seconds" and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L–120, a person may manufacture for export (but may not without permission in writing by the War Production Board sell in the domestic market) any kind of "fine writing paper" in any size or substance weight required, regardless of quantity, provided all other provisions of this schedule are complied with and (if the substance weight or thickness is greater than permitted by this schedule) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such greater substance weight or thickness; and further, bonds, ledgers and writings may be manufactured with any percent of rag content specified by any foreign government to fill a special making order for such government.

(j) *Records and Reports*—(1) *Standard samples.* Each person who manufactures any kind of "fine writing paper" shall keep, readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the appropriate caption.

(2) *Special making orders.* On and after September 1, 1943, each person who manufactures any "special making order" permitted under B of the appropriate caption of the Appendix below shall require from the buyer a statement to the effect that such order is purchased for use by one printer, converter or consumer, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943, each person who manufactures "fine writing paper" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export and, in the case of a foreign government that such paper is purchased for such government, shall keep such statement, together with a complete record of the order against which such paper is manufactured readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Effective date.* This revised schedule shall take effect on September 1, 1943.

NOTE: The reporting requirements of WPB 1295 (formerly PD–589) have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 28th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD[1]

[Schedule IV as Amended and Revised August 28, 1943 to Limitation Order L-120]

TABLET PAPER

Section 3281.20 *Schedule IV to Limitation Order L-120* is hereby amended and revised to read as follows:

§ 3281.20[1] *Schedule IV to Limitation Order L-120*—(a) *Definitions.* For the purposes of this schedule, including the Appendix:

(1) The term "tablet paper" means the kind of paper commonly described and distributed in the paper trade by the designation "tablet paper."

(2) A "grade" means one particular quality of "tablet paper", such grade having the essential properties peculiar to such kind of paper and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any such property is emphasized, due only to a difference in ash content, in sizing, or in the dyes used in the paper shall not be considered as resulting in a different grade.

(3) "Color" means any hue of the spectrum, including but not limited to ivory, india and green-white tints, and black, but not including white.

(4) The term "basis weight" means the weight of a tablet paper in pounds per 500 sheets in the size indicated in the Appendix, or the equivalent weight of 500 sheets in any other size figured proportionately to the size specified.

(5) An "item" means a quantity of paper all of which is of the same size, basis weight, grain, finish, color and grade.

(6) The term "standard" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, a grade and color selected and a basis weight and size specified under A of the appropriate caption in the Appendix below.

(7) The term "special" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, any grade, color, basis weight or size that is not standard.

(8) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one converter or consumer.

(9) The term "manufacture" includes all making and finishing operations prior to packaging or packing.

(10) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other forms of enterprise subject to a common executive or operating management, or with a common sales organization.

(b) *Identification of the papers subject to this schedule.* It shall be the duty of each person who manufactures paper to determine in the first instance, but subject to review and official classification by the War Production Board at any time thereafter, which papers manufactured by him belong under the caption "tablet paper" in the Appendix below. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board, the designation by which the manufacturer heretofore identified or distributed the paper in question, the common designation in the paper trade of similar papers selling within the same general price range as the paper in question, and the common designation in the paper trade of papers possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper in question. If a manufacturer is uncertain as to whether or not a particular paper manufactured by him is such a paper he may apply to War Production Board, in writing, for an official classification of such paper, submitting with his application representative samples of the grade or grades in which he manufactures such paper, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of papers with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefor an official classification. In any event, an official classification by the War Production Board, by telegram or notice in writing sent to the manufacturer shall unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *Selection of grades for regular manufacturer.* Each person who manufactures "tablet paper" shall select such "grade" or "grades" thereof, not to exceed the number specified in A (1) of the Appendix below, as he may desire to adopt for regular manufacture and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD 589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) of the Appendix below a manufacturer is permitted, with respect to a particular grade of "tablet paper", to select a number of colors, each person desiring to manufacture such grade in colors shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the Appendix, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD 589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(e) *General limitations.* (1) Except to the extent and upon the conditions indicated in paragraphs (e) (2), (f), (g), (h) and (i) of this revised schedule, or under B of the Appendix below, no person shall manufacture "tablet paper" in any grade, color, basis weight or size other than those selected or specified as standard under A of the Appendix, or contrary to any other provision under A of the Appendix; nor shall a manufacturer sell tablet paper otherwise than as provided under A of the Appendix.

(2) Exceptions to paragraph (e) (1). Nothing in this revised schedule shall prevent the manufacture of tablet paper in any basis weight not prohibited by the provisions of this schedule as previously amended, provided such tablet paper was in process of manufacture prior to September 1, 1943; nor shall the provisions of this revised schedule prevent the manufacture of tablet paper in any basis weight permitted for a particular use by any subsequent order, provided the basis weight does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such subsequent order are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of "tablet papers" and to the

[1] Formerly Part 1223, § 1223.5.

normal variations in quantity manufactured customarily acceptable in the paper trade. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for roll paper; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions applying to a "special size" under B of the Appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds", resulting from faulty manufacture of overruns customarily unacceptable to the buyer, which occur during a bona fide attempt to manufacture "tablet paper" according to the terms of this revised schedule, provided that the manufacturer clearly informs the purchaser that such paper is a "job lot" or "seconds" and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L–120, a person may manufacture for export (but may not without permission in writing from the War Production Board sell in the domestic market) any grade of "tablet paper" in any size or basis weight required, regardless of quantity, provided all other provisions of this schedule are complied with, and (if the basis weight is heavier than permitted under the appropriate caption) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(j) *Records and reports*—(1) *Standard samples.* Each person who manufactures any grade of "tablet paper" shall keep, readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the Appendix below.

(2) *Special making orders.* On and after September 1, 1943 each person who manufactures any "special making order" permitted under B of the Appendix below shall require from the buyer a statement to the effect that such order is purchased for use by one converter or consumer, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943 each person who manufactures "tablet paper" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Effective date.* This revised schedule shall take effect on September 1, 1943.

NOTE: The reporting requirements of WPB 1295 (formerly PD 589) have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 28th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3281—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD

[Schedule V to Limitation Order L–120, as Amended and Revised August 28, 1943]

ENVELOPE PAPERS

§ 3281.21[1] *Schedule V to Limitation Order L–120*—(a) *Definitions.* For the purpose of this schedule, including the Appendix:

(1) The term "envelope papers" means and is limited to the kinds of paper commonly described and distributed in the paper trade by the names used as captions in the Appendix below.

(2) A "grade" means one particular quality within a kind of envelope paper, such grade having the essential properties peculiar to such kind of paper and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any such property is emphasized, due only to a difference in ash content, in sizing, in the quantity of adhesive in the coating formula, or in the dyes used in the paper and/or coating shall not be considered as resulting in a different grade.

(3) "Color" means any hue of the spectrum, including but not limited to ivory, india and green-white tints, and black, but not including white.

(4) The term "basis weight" means the weight of a kind of envelope paper in pounds per 500 sheets in the size indicated under the appropriate caption, or the equivalent weight of 500 sheets in any other size, figured proportionately to the size specified.

(5) An "item" means a quantity of paper all of which is of the same size, grain, basis weight, finish, color and grade.

(6) The term "standard" as applied to grade, color, basis weight and size means, with respect to each manufacturer, a grade and color selected and basis weight and size specified under A of the appropriate caption in the Appendix below.

(7) The term "special" as applied to grade, color, basis weight and size means with respect to each manufacturer, any grade, color, basis weight or size that is not standard.

(8) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one converter or consumer.

(9) The term "manufacture" includes all making and finishing operations prior to packaging or packing, including pasting whether by a primary manufacturer or otherwise.

(10) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other forms of enterprise subject to a common executive or operating management or with a common sales organization.

(b) *Identification of the papers subject to this schedule.* It shall be the duty of each person who manufactures paper to determine in the first instance, but subject to review and official classification by the War Production Board at any time thereafter, under which caption, if any, of the Appendix, belongs each of the "envelope papers" manufactured by him. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board, the designation by which the manufacturer heretofore identified or distributed the paper in question, the common designation in the paper trade of similar papers selling within the same general price range as the paper in question, and the common designation in the paper trade of papers possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper in question. If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "envelope paper," or whether a particular kind of paper is such a paper at all or belongs under any caption of the Appendix to this schedule, he may apply to the War Production Board, in writing, for an official classification of such paper, submitting with his application representative samples of the grade or grades in which he manufactures such paper, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of papers with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefor an official classification. In any event, an official classification by the War Production Board, by telegram or notice in writing, sent to the manufacturer, shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *Selection of grades for regular manufacture.* Each person who manufactures any kind of "envelope paper" shall, with respect to each such kind he manufactures, select such "grade" or "grades" thereof (if such selection is indicated under the appropriate caption and has not already been reported by him to the War Production Board), not to exceed the number specified in A (1) of the appropriate caption of the Appendix below, as he may desire to adopt for regular manufacture and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) under the appropriate caption of the Appendix below a manufacturer is permitted, with respect to a particular grade of a kind of "envelope paper", to select a number of colors and such selection is indicated and has not already been reported by him, each person desiring to manufacture such grade in colors, shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the appropriate caption, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing the original selection shall remain binding.

(2) *Exceptions to paragraph (e) (1).* Nothing in this revised schedule shall prevent the manufacture, otherwise than by pasting, of envelope paper in any basis weight not prohibited by the provisions of this schedule as previously amended, provided such envelope paper was in process of manufacture prior to September 1, 1943; nor shall the provisions of this revised schedule prevent the manufacture of envelope paper in any basis weight permitted for a particular use by any subsequent order, provided the basis weight does not exceed the maximum specified by the War Production Board for such use and provided all other provisions of this or such subsequent order are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of "envelope paper" and to the normal variations in quantity manufactured customarily acceptable in the paper trade. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for roll paper; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions applying to a "special size" under B of the appropriate caption in the Appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds," resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona-fide attempt to manufacture "envelope paper" according to the terms of this revised schedule, provided that the manufacturer informs the purchaser that such paper is a "job lot" or "seconds," and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L–120, a person may manufacture for export (but may not

[1] Formerly § 1223.6 of Part 1223.

without permission in writing by the War Production Board sell in the domestic market) any kind of "envelope paper" in any size or substance weight required, regardless of quantity, provided all other provisions of this schedule are complied with, and (if the basis weight is heavier than permitted by this schedule) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(j) *Records and reports*—(1) *Standard samples.* Each person who manufactures any kind of "envelope paper" shall keep, readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the appropriate caption.

(2) *Special making orders.* On and after September 1, 1943, each person who manufactures any "special making order" permitted under B of the appropriate caption of the Appendix below, shall require from the buyer a statement to the effect that such order is purchased for use by one converter or consumer, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943, each person who manufactures "envelope paper" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, and shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Effective date.* This revision schedule shall take effect on September 1, 1943.

Issued this 28th day of August 1943.

If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "paper for use in newspapers or magazines," or whether a particular kind of paper is such a paper at all or belongs under any caption of the appendix to this Schedule, he may apply to the War Production Board, in writing, for an official classification of such paper, submitting with his application representative samples of the grade or grades in which he manufactures such paper, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of papers with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefor an official classification. In any event, an official classification by the War Production Board by telegram or notice in writing sent to the manufacturer shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *General limitations.* (1) Except to the extent and upon the conditions indicated in paragraph (c) (2) and paragraphs (d), (e) and (f) of this Schedule, no person shall manufacture any kind of "paper for use in newspapers or magazines" in any basis weight heavier than the basis weight specified as the maximum for the kind of paper indicated by each caption in the Appendix below.

(2) Exceptions to paragraph (c) (1). Nothing in this schedule shall prevent the manufacture, otherwise than by pasting, of "paper for use in newspapers or magazines" in any basis weight exceeding the maximum specified, provided such paper was in process of manufacture prior to September 1, 1943, nor shall the provisions of this schedule prevent the manufacture of paper in any basis weight permitted for a particular use by any subsequent order, provided the basis weight does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such subsequent order are fully complied with.

(d) *Tolerances and variations.* The prohibitions and restrictions of this schedule are subject to the normal tolerances customary in the manufacture of the kind of paper indicated by each caption and to the normal variations in quantity manufactured customarily acceptable in the paper trade.

(e) *Jobs and seconds.* Nothing in this schedule shall restrict the sale of "job lots" or "seconds" resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona fide attempt to manufacture "paper for use in newspapers or magazines" according to the terms of this schedule, provided that the manufacturer clearly informs the purchaser that such paper is a "job lot" or "seconds" and so indicates on each package.

(f) *Exception for export.* Regardless of the foregoing provisions of this schedule and of Limitation Order L–120, a person may manufacture for export (but may not without permission in writing from the War Production Board sell in the domestic market) any kind of "paper for use in newspapers or magazines" in any basis weight required, provided that (if the basis weight is heavier than permitted by this schedule) such person has received permission from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(g) *Records and reports.* (1) Each person who manufactures "paper for use in newspapers or magazines" shall keep, readily available for inspection by the War Production Board, records of the basis weights of each manufacturing run of such paper.

(2) On and after September 1, 1943, each person who manufactures "paper for use in newspapers or magazines" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(h) *Effective date.* This schedule shall take effect on September 1, 1943.

Issued this 28th day of August 1943.

By J. JOSEPH WHELAN,
Recording Secretary.

PART 3282—MISCELLANEOUS CHEMICALS

[Allocation Order M–340 as Amended August 28, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3282.1 *Allocation Order M–340*—(a) *Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorizations or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form PD–602 which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed the quantity which War Production Board shall in writing specifically authorize or direct such supplier to deliver in such month under paragraph (c) (1), on application made by such supplier (in the normal case on Form PD–602 filed pursuant to paragraph (g) hereof).

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of, the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month following the month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate must be received by the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe, he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form PD-602 in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) War Production Board may issue to any supplier other and further directions with respect to preparing and filing Form PD-602.

(h) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington, 25 D. C. Ref: M-340.

Issued this 28th day of August 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

(iii) Replacement batteries so produced be included in the number authorized for production in the periods specified in paragraph (f) below.

(f) *Restrictions on production of replacement batteries for passenger automobiles, light, medium and heavy trucks, truck tractors, truck trailers, passenger carriers and off-the-highway motor vehicles.* (1) No producer shall, during any calendar quarter of 1943, manufacture automotive replacement storage batteries in excess of the number (hereinafter referred to as "quota") obtained by multiplying the percentage shown below for that calendar quarter of 1943 by the total number of such batteries sold by him during the calendar year 1941:

Calendar Quarter of 1943:	*Percentage of 1941 sales*
January 1 to March 31	22½
April 1 to June 30	22½

October 1 to December 31	25

(2) Notwithstanding subparagraph (1) of this paragraph (f), a producer may, in addition to the quotas permitted thereby,

(i) Manufacture during the second, third and fourth calendar quarters of 1943 that number of replacement batteries by which he failed to reach his full quota during the next preceding calendar quarter provided that this additional production does not exceed 5% of the number of replacement batteries sold by him during the calendar year 1941; and, in addition,

(ii) Manufacture during the first, second and third calendar quarters of 1943 not in excess of 5% of the number of such batteries sold by him during the calendar year 1941, provided he deducts such number from his quota for the next succeeding calendar quarter of 1943; *And Provided further,* That in no event shall any producer manufacture during the calendar year 1943 a number of such replacement batteries in excess of 100% of the number of such batteries which he sold during the calendar year 1941.

(3) *Additional 5% production authorized.* In addition to the production authorized by subparagraphs (1) and (2) (i) (ii) of this paragraph (f), producers may manufacture replacement batteries during the period July 1, 1943 to December 31, 1943 in an amount equal to 5% of the total number of such batteries sold by the producer during the calendar year 1941. In no event, however, shall the total production of any producer for the year 1943 exceed 105% of the number of replacement batteries sold by him during the year 1941.

(4) *Foregoing not applicable to producers of less than 25,000 units.* The restrictions on production of replacement batteries contained in this paragraph (f) (1) and (2) (i) (ii) and (3) shall not apply to a producer who during the year 1941 sold less than 25,000 replacement batteries; provided, however, that during the year 1943 his total production shall not exceed 25,000 units.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-412]

AMCO BRASS & STEEL SUPPLY CO.

Morris Cohen and Abraham Cohen, doing business as Amco Brass & Steel Supply Company, a partnership, located at 428 Broome Street, New York, New York, is engaged in buying and selling a miscellaneous line of prime and used metals, motors, dies, tools, general hardware and junk. During the period September 10, 1942, through January 27, 1943, the respondent delivered at least 3690 pounds of copper scrap without specific authorization as required by Supplementary Order M-9-b of the War Production Board. Respondent likewise violated General Preference Order M-9-a by making deliveries of copper without receiving proper preference ratings, and by receiving delivery of approximately 8,400 pounds of copper base alloy, knowing that such delivery was made in violation of that Order. Respondent, moreover, failed to keep proper records as required by Priorities Regulation No. 1. The respondents knew of these Orders, but failed to abide by them. These wilful violations of the respondents have hampered and impeded the war effort of the United States. In view of the foregoing: *It is hereby ordered,* That:

§ 1010.412 *Suspension Order S-412.* (a) Deliveries of material to Morris Cohen and Abraham Cohen, individually or as partners, doing business as Amco Brass & Steel Supply Co., or otherwise, their successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation or allotment to Morris Cohen or Abraham Cohen individually, or as a partnership, doing business as Amco Brass & Steel Supply Co., or otherwise, shall be made of any materials or products, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Morris Cohen or Abraham Cohen, individually, or as a partnership, doing business as Amco Brass & Steel Supply Co., or otherwise, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on August 30, 1943, and shall expire on November 30, 1943.

Issued this 23d day of August 1943.

(3) Waiver by the purchaser or procuring agency of any of the inspection or test requirements of any specification.

(4) Substitution, in place of the test prescribed by any specification, of mill testing of steel pipe to a pressure that will produce a stress in the pipe material not to exceed 90 percent of the specified minimum yield point, provided such test procedure is acceptable to both the producer and the purchaser or procuring agency.

(5) Production, fabrication, delivery, or acceptance of steel pipe in other diameters or wall thicknesses for use in the manufacture of steel pipe fittings, boiler water walls, water screens, economizers, headers, or manifolds.

(6) Production, fabrication, delivery, or acceptance of steel pipe not conforming to the requirements of paragraph (d) when certified by the United States Army or Navy to the producer, fabricator, or supplier and to the Steel Division, War Production Board, as being necessary to insure the military characteristics of the item for which the steel pipe is required. Such certification shall specify the contract involved and the justification for the exception.

(7) Production, fabrication, delivery, or acceptance of steel pipe specifically permitted in writing by the War Production Board. In the case of alloy steel pipe, such permission may be granted with respect to chemical composition by the approval of a melting, production, or delivery schedule.

(g) *Records.* Each person owning or possessing steel pipe excepted by the provisions of paragraph (f) shall retain records of such material available for inspection by duly authorized representatives of the War Production Board. In addition, each person accepting an order for steel pipe excepted by the provisions of paragraph (f) (6) shall furnish details of such order to the War Production Board within ten days after such acceptance. The record-keeping and reporting requirements of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

PART 1448—EATING AND DRINKING ESTABLISHMENTS

[2d Rev. Restaurant MPR 7-1]

FOOD AND DRINK SOLD FOR IMMEDIATE CONSUMPTION IN DENVER REGION

Revised Restaurant Maximum Price Regulation No. 7-1 is redesignated as 2d Revised Restaurant Maximum Price Regulation No. 7-1, and is revised and amended to read as follows:

In the judgment of the Regional Administrator of Region VII, the prices of food and beverages sold for immediate consumption in the States of Colorado, Montana, New Mexico, Utah and Wyoming, and all that portion of the State of Idaho lying south of the southern boundary of Idaho County, and all of Harney and Malheur Counties in the State of Oregon, and all of Mohave and Coconino Counties in the State of Arizona, have risen and are threatening further to rise to an extent and in a manner inconsistent with the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

In the judgment of the Regional Administrator of Region VII, the maximum prices established by this regulation are generally fair and equitable and are necessary to check inflation and to effectuate the purposes of the Act.

So far as practicable the Regional Administrator of Region VII gave due consideration to prices prevailing between October 1 and 15, 1941, and consulted with the representatives of those affected by this regulation. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith.

Therefore, in accordance with the direction of the President to take action which will stabilize prices affecting the cost of living, and under the authority therewith delegated by the President pursuant to the Act of Congress approved October 2, 1942, entitled "An Act to Aid in Stabilizing the Cost of Living" (F.R. 7565), 77th Congress, 2d Session, and under the authority of Executive Order 9250, Executive Order 9328, and the Emergency Price Control Act of 1942, the Regional Administrator of Region VII hereby issues this 2d Revised Restaurant Maximum Price Regulation No. 7-1, establishing as the maximum prices for food and drink sold for immediate consumption in the above mentioned states the prices prevailing therefor during the seven-day period beginning April 4, 1943, and ending April 10, 1943.

§ 1448.601 *Maximum prices for food and drink sold for immediate consumption.* Under the authority vested in the Regional Administrator of Region VII by the Emergency Price Control Act of 1942, as amended, Executive Order 9250, Executive Order 9328 and General Order No. 50 issued by the Office of Price Administration, 2d Revised Restaurant Maximum Price Regulation No. 7-1 (Food and Drink Sold for Immediate Consumption), which is annexed hereto and made part hereof, is hereby issued.

AUTHORITY: § 1448.601 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Sales at higher than ceiling prices prohibited.* If you own or operate a restaurant, hotel, cafe, delicatessen, soda fountain, boarding house, or any other eating or drinking place not expressly exempted herefrom, you must not offer or sell any "food item" (including any beverage) or "meal" at a price higher than the ceiling price which you figure according to the directions in the next two sections (Sections 2 and 3). You may, of course, sell at lower than ceiling prices.

SEC. 2. *How you figure ceiling prices for food items and meals you offered in the seven-day period from April 4, 1943, to April 10, 1943.* (a) Your ceiling price for any food item or meal which you offered in the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943, is the highest price

at which you offered the same food item or meal in that seven-day period.

(b) As to any food item sold separately which is a bakery product under MPR 319, you may add to your ceiling price the amount, if any, by which the cost of such food item has been increased by your customary supplier since April 10, 1943.

SEC. 3. *How you figure ceiling prices for food items and meals you did not sell in the seven-day period.* You must figure your ceiling price for a food item or meal which you did not offer in the seven-day period as follows:

(a) Choose from the food items or meals for which a ceiling price has already been fixed the food item or meal which is most similar to the food item or meal you are pricing; and

(b) Figure a price "in line" with the ceiling price of that most similar food item or meal. A price is "in line" if the customer receives as much value for his money from the one item or meal as from the other, even though the two prices may be different. In comparing values, quality, size of portions, and the margin over food cost are the things that count; or

(c) If you prefer, take as your ceiling price the last price at which you offered the same food item or meal for sale before the seven-day period.

(d) Once your ceiling price for a food item or meal has been fixed, it may not be changed.

SEC. 4. *How you figure ceiling prices if you are the proprietor of a seasonal eating place.* If you are the proprietor of a seasonal eating or drinking place which is not exempt under the terms of section 19 (f) you must figure your ceiling prices as follows:

(a) If the place was in operation during the base period from April 4 to April 10, 1943, use the rules set forth in sections 2 and 3.

(b) If the place was not in operation during the base period from April 4 to April 10, 1943, but another place of the same type and within a reasonable distance was in operation during that period, fix your ceiling prices as a new proprietor under the terms of section 9 (b).

(c) If you cannot price under subparagraphs (1) and (2) above, you must apply for a price to the OPA District Office for the area in which the place is located.

SEC. 5. *Classes of food items and meals.* (See definitions of "food item" and "Meal" contained in section 18.) (a) *The classes of food items.*

(1) Fruits and fruit juices.
(2) Cereals.
(3) Egg and combination egg dishes served at breakfast.
(4) Bread, rolls, toast, etc., served at breakfast.

(7) All other breakfast dishes.

(b) *The classes of meals.* For the purposes of this regulation there shall be ten classes of meals; namely, breakfast, lunch, tea, dinner and supper during week days, and breakfast, lunch, tea, dinner and supper on Sundays.

SEC. 6. *No ceiling price for any food item or meal to be higher than the highest ceiling price for a food item or meal of the same class in the base period.* Under no circumstances are you permitted to charge a higher price for a food item or meal than your highest ceiling price for food items or meals of the same class offered in the seven-day period, except that any proprietor who has customarily in the regular course of his business charged higher prices for meals or food items, including beverages, on any one or more of the following holidays: namely, New Year's Day, Easter, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas, and New Year's Eve, may continue to charge such higher prices on such holidays not, however, to exceed an increase of 15% above his regular Sunday price.

Example 1. If you figured an "in line" price for a new week-day dinner at $1.25, and your highest ceiling price in the week-day dinner class is $1.00, your ceiling price for the new dinner is $1.00.

Example 2. If your highest ceiling price for any soup offered by you during the seven-day period is 15 cents, you may not offer any other soup at a higher price than 15 cents.

SEC. 7. *Prohibition against discontinuing meals at certain prices.* You must not now discontinue offering meals at prices comparable to those charged by you in the seven-day period if by your doing so your customers would actually have to pay more than they did in the seven-day period. You will be in violation of this rule unless.

(a) You continue to offer meals at different prices representative of the range of prices at which you offered meals of the same class during the seven-day period, and unless

(b) You continue to offer at least as many different meals at or below the lowest price charged by you for meals of the same class on any day that you select in the seven-day period, as you did on that day.

Example. If you select Friday, April 9, 1943, to determine the lowest price and the number of week-day meals offered at that price, and if on that day you offered six week-day dinners, of which two were priced at 85¢, and one each at 90¢, $1.00, $1.10, $1.15, you must continue to offer two week-day dinners at 85¢. Note that Sunday meals and week-day meals are meals of a different class.

SEC. 8. *Evasion.* You must not evade the provisions of this regulation by any scheme or device, including:

(a) Deteriorating quality or reducing quantity without making appropriate reductions in price;

(b) Withdrawing the offer, or increasing the price, of any meal ticket, weekly rate, or other arrangement by which customers may buy food items or meals at less than the prices they must pay when purchasing by item or meal;

(c) Increasing any cover, minimum, bread-and-butter, service, corkage, entertainment, check-room, parking, or other special charges, or making such charges when they were not in effect in the seven-day period;

(d) Requiring as a condition of sale of an item or meal the purchase of other items or meals, except that you may refuse to sell coffee unless a customer also purchases another food item;

(e) Refusing to sell combination of food items as meals if such meals were offered in the seven-day period and the items making up the combination are being offered separately.

(f) You will not be considered evading the provisions of this regulation, however, if you do any of the following things, even though you did not do any of these things during the seven-day period:

(1) You may limit your customers to one cup of coffee per meal.

(2) You may limit your customers to one pat of butter per meal.

(3) You may reduce the quantity, or eliminate altogether, condiments (such as catchup, chili sauce, etc.) which you may have customarily placed at the disposal of your customers and which now are, or may hereafter be, subject to any rationing order or rationing regulation of the Office of Price Administration.

(4) You may reduce the amount of sugar served with each cup of coffee or tea, or each bowl of cereal, fruit or other similar food items with which sugar is served, to, but not less than, one teaspoonful.

You may not, however, make the curtailment authorized in the foregoing subparagraphs and furnish those curtailed items at an additional charge. For example, if during the seven-day period you furnished catchup and mustard, you may not now discontinue furnishing those items free and at the same time offer to furnish them for an additional charge.

SEC. 9. *Rules for new proprietors.* (a) If you acquire another's business and continue the business in the same place, you are subject to the same ceiling prices and duties as the previous proprietor.

(b) If you open an eating or drinking place after the seven-day period, you

must fix ceiling prices in line with the ceiling prices of the nearest eating or drinking place of the same type as yours. If the ceiling prices so fixed are too high and threaten to have an inflationary effect on the price of food or drink, the Office of Price Administration may issue an order requiring you to reduce your ceiling prices. You are subject to the record requirements of Section 11 and the posting requirements of Section 12 immediately upon the opening of your place.

SEC. 10. *Taxes.* If in the seven-day period you stated and collected the amount of any tax separately from the price you charged, you may continue to do so. You may also separately state and collect the amount of any new tax or of any increase in the amount of a previous tax on the sale of food or drink or on the business of selling food or drink, if the tax is measured by the number or price of items or meals.

SEC. 11. *Records*—(a) *Filing of menus.* General Order No. 50 required you to file with your War Price and Rationing Board on or before May 1, 1943, a signed copy of each menu or list of your prices in effect during the seven-day period beginning Sunday, April 4, 1943, and ending Saturday, April 10, 1943. If you have not already filed, you must do so immediately. Failure to do so will also constitute a violation of this regulation.

(b) *Filing by proprietors not in operation during the seven-day period.* The proprietor of an eating or drinking place which was not open during the seven-day period (including newly-opened places) shall file menus or a price list in accordance with paragraph (a) above, except that (1) the filing shall be for the seven-day period beginning with the first Sunday that place is open after April 4, 1943, and (2) the filing shall be made within three weeks of such first Sunday.

(c) *Records of the seven-day period.* You must make available for examination by any person during ordinary business hours a copy of each menu used by you in the seven-day period from April 4–10, 1943, or if you are a new proprietor, in the seven-day period referred to in paragraph (b) above. If you did not use menus, or if your menus were incomplete, you must make available for such examination a list of the highest prices you charged in such seven-day period.

(d) *Customary records.* You must preserve all your existing records relating to your prices, costs and sales. You must also continue to maintain such records as you ordinarily kept. All such records shall be subject to examination by the Office of Price Administration.

(e) *Future records.* Beginning with the effective date of this regulation, you must keep, for examination by the Office of Price Administration, two copies of each menu used by you each day. If you do not use menus you must prepare, in duplicate, and preserve for such examination, a record of the prices charged by you each day, except that you need not record prices which are the same as, or less than, prices you previously recorded for the same items or meals. Proprietors who operate a number of eating or drinking places in the same city which have customarily been subject to central control may keep the records required by this paragraph for those places at a central office or the principal place of business within the city.

SEC. 12. *Posting.* (a) Beginning May 14, 1943, each menu must have clearly and plainly written on or attached to it the following statement:

All prices listed hereon are at or below our ceiling prices as of April 4 to 10, 1943.

If you do not use menus, you must post the statement by a sign which can be easily read by your customers and must be located near the cashier's desk, if any, or, if none, in such location that the customer can easily read same at the time of purchase.

(b) If you made menus available to customers in the seven-day period, you shall continue to make them available.

SEC. 13. *Operation of several places.* If you own or operate more than one eating or drinking place, you must do everything required by this regulation for each place separately.

SEC. 14. *Relation to other maximum price regulations.* The provisions of this regulation shall supersede other regulations, including the General Maximum Price Regulation, now or hereafter issued by the Office of Price Administration, in so far as they establish maximum prices for meals and food items sold by eating and drinking places. However, a price charged during the base period of this regulation shall not become a maximum price under this regulation to the extent that it exceeded the maximum price established by another regulation applicable at that time. In such case the lawful maximum price applicable at that time shall be the maximum price hereunder.

SEC. 15. *Geographical application.* This 2d Revised Restaurant Maximum Price Regulation No. 7–1 applies to the states of Colorado, Montana, New Mexico, Utah and Wyoming, and all that portion of the State of Idaho lying south of the southern boundary of Idaho County, and all of Harney and Malheur Counties in the State of Oregon, and all of Mohave and Coconino Counties in the State of Arizona.

SEC. 16. *Licensing.* The registration and licensing provisions of §§ 1499.15 and 1499.16 of the General Maximum Price Regulation are applicable to every person subject to this 2d Revised Restaurant Maximum Price Regulation No. 7–1.

SEC. 17. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement action, suits for treble damages and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 18. *Definitions and explanations.* (a) "Person" means individual, corporation, partnership, association or other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, any other government, or any of its political subdivisions, and any agencies of any of the foregoing.

(b) "Meal" means a combination of food items sold at a single price. Examples of meals are a five-course dinner, a club breakfast, and a blue-plate special. Two or more kinds of food which are prepared or served to be eaten together as one dish are not a "meal." Examples of such dishes are: ham and eggs, bread and butter, apple pie and cheese.

(c) "Offered" means offered for sale and includes the listing or posting of prices for items and meals even though the items and meals so offered were not actually on hand to be sold.

(d) "Food item" means an article or portion of food (including beverages) sold or served by an eating or drinking place for consumption in or about the place or to be taken out for eating without change in form or additional preparation. It includes two or more kinds of food which are prepared or served to be eaten together as one dish, such as ham and eggs, bread and butter, apple pie and cheese.

(e) "Eating or drinking place" shall include any place, establishment or location, whether temporary or permanent, from which any food item or meal is sold except those places which are specifically exempted in Section 19 hereof.

(f) Unless the context otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942 and in the General Maximum Price Regulation, issued by the Office of Price Administration, shall apply to other terms used herein.

SEC. 19. *Exempt sales.* Sales by the following eating or drinking places are specifically exempt from the provisions of this regulation:

(a) Bona fide private clubs insofar as such clubs sell only to members and bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking place within the meaning of this regulation. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and otherwise is operated as a private club.

No club organized after the effective date of this regulation shall be exempt unless and until it has filed a request for exemption with the nearest State or District Office of the Office of Price Administration, furnishing such information as may be required, and has received communications from such office authorizing exemption as a private club.

(b) Eating and drinking places located on church premises and operated in connection with special church, Sunday School and other religious occasions.

(c) Public and private hospitals insofar as such hospitals serve food to patients. Public and private hospitals are covered by the regulation insofar as such hospitals sell meals to visitors, employees, and private nurses.

(d) Eating and drinking places when operated by a school, college, university or other educational institution, or a student fraternity or other student organization or association primarily for the convenience and accommodation of students and faculty, and not for profit as a commercial or business enterprise or undertaking.

(e) Eating and drinking places located on board common carriers, when operated as such, including railroad dining cars, club, bar and buffet cars, and peddlers aboard railroad cars. Provided, however, that peddlers aboard railroad cars who make no sales outside of the states enumerated in Section 15 shall not be exempt but shall be covered by the regulation.

(f) If you are the proprietor of a seasonal eating or drinking place that:

(1) Was not open during the base period from April 4 to 10, 1943,

(2) Received 90 percent or more of its total annual revenue during four calendar months of the year,

(3) Is located in an area for which no Maximum Rent Regulation has been issued,

the prices for food items and meals offered by you in that place are exempt from control.

You must not regard this exemption as relieving you from the obligations imposed upon you by General Order No. 50, and you are still subject to the provisions of Section 20 of this regulation. Pursuant to this latter section the Administrator will by special order establish maximum prices for any seasonal eating or drinking place which takes undue advantage of the exemption.

SEC. 20. *Special orders.* The provisions of this regulation to the contrary notwithstanding, the Office of Price Administration may from time to time issue special orders providing for the reduction of the maximum price of any food item or items or meal or meals sold or offered by any seller or sellers when, in the judgment of the Administrator, such action is necessary or desirable to prevent excessive charges, to prevent inflation, to stabilize prices affecting the cost of living, or to carry out the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328.

SEC. 21. *Application for adjustment.* (a) The Office of Price Administration may adjust the maximum prices for any eating establishment under the following circumstances:

(1) The establishment will be forced to discontinue operations unless it is granted an adjustment of the maximum prices established by this regulation.

(2) Such discontinuance will result in serious inconvenience to consumers in that they will either be deprived of all restaurant service or will have to turn to other establishments that present substantial difficulties as to distance, hours of service, selection of meals or food items offered, capacity, or transportation.

(3) By reason of such discontinuance, the same meals or food items will cost the customers of the eating establishment as much or more than the proposed adjusted prices.

(b) If you are the proprietor of an eating establishment which satisfies the requirements specified above, you may apply for an adjustment of your maximum prices by submitting to your OPA District Office a statement setting forth:

(1) Your name and address.

(2) A description of your eating establishment including: type of service rendered (such as cafeteria, table service, etc.), classes of meals offered (such as breakfast, lunch and dinner), number of persons served per day during the most recent thirty-day period,[1] and such other information that may be useful in classifying your establishment.

(3) The reasons why your customers will be seriously inconvenienced if you discontinue operations.

(4) The names and addresses of the three nearest eating places of the same type as yours.

(5) A list showing your present and requested, adjusted maximum prices.

(6) A profit and loss statement for your restaurant business for the most recent three-month accounting period, and a copy of your last income tax return if one was filed separately for your restaurant business.

Applications for adjustment under this section may be acted upon by any District Office that has been authorized to do so by order of the Regional Office.

SEC. 22. *Petitions for amendment.* You may petition for an amendment of any provision of this regulation (including a petition pursuant to Supplementary Order No. 28) by proceeding in accordance with Revised Procedural Regulation No. 1, except that the petition shall be filed with and acted on by the Regional Administrator.

SEC. 23. *Revocation.* This regulation may be revoked, amended or corrected at any time.

This regulation shall become effective August 25th, 1943.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1943.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 409,[1] Amdt. 4]

FROZEN FRUITS, BERRIES AND VEGETABLES (1943 PACK AND AFTER)

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 409 is amended in the following respects:

1. In section 2, the second sentence of the first undesignated paragraph following the list of prices is amended to read as follows:

Such reduction shall be shown on the packer's invoice as an allowance to the purchaser on the selling price, except in sales to United States agencies.

2. Section 3 (b) (2) is amended by adding the following sentence:

Any packer who has two seasonal packs of the commodity during the calendar year may figure maximum prices as if each pack were a separate commodity.

3. In section 3 (j) the last sentence is amended to read as follows:

Such reduction shall be shown on the packer's invoice as an allowance to the purchaser on the selling price, except in sales to United States agencies.

4. A new paragraph (n) is added to section 3, as follows:

(n) *Uniform prices where the packer has more than one factory.* Any packer who packs an item at more than one factory and whose maximum prices for the items vary by factory may establish a uniform maximum price for the item for any group of factories by figuring a weighted average of their separate maximum prices. For any two or more factories selected by the packer, this weighted average maximum price shall be figured by him as follows: He shall (1) determine the total estimated receipts which would have been obtained if his production of the 1942 pack of the item at those factories had been sold at the separate maximum prices which are in effect (under this regulation) on the date of calculation, and (2) divide that figure by the total number of pounds or other units of the item included in that production.

This amendment shall become effective August 28, 1943.

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[MPR 389,[2] Amdt. 7]

CEILING PRICES FOR CERTAIN SAUSAGE ITEMS AT WHOLESALE

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 389 is amended in the following respects:

1. Section 1 is amended to read as follows:

SECTION 1. *What this regulation does—*(a) *In general.* This regulation fixes dollar and cents ceiling prices on certain sausage products and places certain limitations upon the volume of sausage that may be sold. On and after June 1, 1943, the date this regulation takes effect, no person may sell or deliver, except at retail, and except to a canner for the manufacture of canned sausage for a war procurement agency, and no person in the course of trade or business except such a canner may buy or receive sausage, at prices higher than the prices permitted by this regulation. But lower prices may be charged or paid.

(b) *Sausage products not covered by this regulation.* The provisions of this regulation do not apply to the following sausage products:

(1) Liver sausage, liver loaf, liver cheese, liver puddings, and braunschweiger or other similar liver products, containing at least 30% liver;

(2) Meat loaves;

(3) Head cheese, souse, scrapple or similar products containing a substantial amount of cereal;

(4) The following products provided they are not kosher and provided they have either a final yield not in excess of 103% of the ingredients used or a fat content which is less than 15% of the finished product: Berliner, New England, minced luncheon, luncheon roll, pork roll, fresh thuringer, brattwurst, bockwurst, mettwurst, Polish sausage, blood sausage, blood and tongue, tongue roll, jellied tongue, jellied corned beef, Chili-con-carne and dry and semi-dry sausage.

(5) Sausage products subject to Maximum Price Regulation No. 286 when sold to a war procurement agency.

2. Section 2 (b) is amended to read as follows:

(b) *Determining the zone in which the point of delivery is located—*(1) *Point of delivery.* The point of delivery is the point at which the product is delivered to the buyer. If local delivery is made, the seller may at his option, treat the point at which local delivery begins as the point of delivery.

(i) Local delivery means delivery by any vehicle, other than a rail carrier, made by the seller to the place of business of the buyer. A truck is not a place of business.

(ii) If the seller does not treat the point at which local delivery begins as the point of delivery, the point at which the product is delivered to the buyer is the point where actual physical possession is taken by the buyer or where the product, consigned to the buyer:

(*a*) Is received by a rail carrier for shipment at the railroad carload rate; or

(*b*) Is received by a common or contract carrier, other than a railroad or an express company; or

(*c*) Is received by an express company for shipment by express to a purveyor of meals; or

(*d*) In the case of kosher sausage, all beef sausage, and special pork sausage type 1, only, is received by a common or contract carrier.

Provided, That the charges of such carrier in all four instances are paid directly to such carrier by the buyer.

3. Section 3 (a) is amended to read as follows:

(a) *Relation to other regulations.* (1) The provisions of this regulation supersede the provisions of the General Maximum Price Regulation,[3] and Revised Maximum Price Regulation No. 169[4] with respect to sales other than at retail of all kosher sausage and of all other sausage except that which is expressly excluded from this regulation by section 1.

(2) The maximum price at which a person may export sausage shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation,[5] issued by the Office of Price Administration.

4. Section 4 is amended to read as follows:

SEC. 4. *Types of sausage and descriptive labelling requirements—*(a) *What sausage may be sold.* After this regulation takes effect, no sausage, other than those kinds of sausage the sale of which is excluded from this regulation by section 1, may be manufactured for sale, offered for sale, or sold, or bought in the course of trade or business, unless such sausage meets the requirements for one of the kinds and types of sausage for which prices are established by this regulation.

(b) *Descriptive labelling requirements—*(1) *All sausage must be labelled.* No sausage subject to this regulation may be manufactured for sale, held for sale, offered for sale, or sold, or bought in the course of trade or business, unless it bears a descriptive label in accordance with the provisions of this paragraph.

(2) *Where the label must be placed.* A label satisfying the requirements of this paragraph shall appear on each one and one-half pounds of frankfurters and pork or breakfast sausage other than bulk, and once on each piece of bologna or other sausage of similar form, or pork or breakfast sausage stuffed in artificial casings or cloth bags. The label may be a band or tag securely affixed to the sausage or printed or stamped upon the casing. A similar label shall also be stamped upon the carton or other immediate container in which the sausage is placed.

(3) *What must appear on the label.* Each label shall contain prominently and in easily legible form: (i) The name of the kind of sausage as used in this regulation; (ii) The word "ingredients" followed by a list of the ingredients when the product is fabricated from two or more ingredients, not counting curing materials, condiments, spices, and water. If there is only one ingredient, not counting curing materials, condiments, spices, and water, and if the name of the kind of sausage includes the name of the ingredient, the ingredient need not be separately stated. The list of ingredients shall state the common or usual names of the ingredients in the order of their predominance by weight, except that curing materials, spices, condiments, and water need not be shown, unless required by some other federal, state, or local regulation. The name of the ingredient shall be a specific name, not a general name, such as, but not limited to, "pork", "beef", "pork head meat", "beef cheek meat", "hearts", "livers", "tripe", "cereal", "dried skimmed milk", etc. The word "pork", "beef", "veal", "mutton", "goat" shall be used in connection with all skeletal meat ingredients. If more than 3½% of extender is used the label shall so state. (iii) Whatever of the following letters or words are appropriate to show the kind of casing used: H. C. for hog casing; S. C. for sheep casing; A. C. for printed artificial casing; skinless, where artificial casings have been removed by the manufacturer. Where the same price applies to the sausage in more than one kind of natural casings, the letters N. C., indicating natural casing may be used. (iv) In the case of kosher sausage, the word "Kosher".

(4) *Temporary use of other labels.* Until November 1, 1943, the seller may, if he so desires, use labels which properly show the type of sausage by letters, and the kind of casing by numbers, as required by this regulation prior to August 27, 1943, instead of the labelling required by subsection (3) of this paragraph.

(5) *Description on invoice.* The name and type of sausage and the kind of casing in which the sausage is sold must be shown on the seller's invoice. Kosher and all beef sausage shall be invoiced as such.

5. Section 6 (a) is amended to read as follows:

(a) After this regulation takes effect every person making a sale, other than at retail, and every person making a purchase in the course of trade or business of sausage subject to this regulation shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a complete record of each such purchase or sale, showing the date thereof, the name and address of the buyer and of the seller, the price charged and the price received, a description of the product including the kind, the type, the kind of casing, or other wrapping employed, and the quantity sold. Kosher sausage shall be shown separately.

6. Section 7 is amended to read as follows:

SEC. 7. *Indirect price increases.* No person shall evade any of the provisions of this regulation by any scheme or device and no person shall indirectly charge or receive for sausage subject to this regulation a price higher than the maximum prices permitted by this regulation. No person shall as a condition of selling any such sausage require a purchaser to buy any other meat or any other product. However, a payment by a buyer to a seller for icing services performed by the seller after June 1, 1943, and before delivery of sausage to a railroad whose charges are paid directly to such railroad by the buyer, if the charge for such icing services is no higher than the costs actually incurred by the seller in performing such services and no higher than the charge which could lawfully have been made by the railroad if such services had been performed by the railroad, shall not be construed as an evasion.

7. Section 12 (a) is amended to read as follows:

(a) *Table of base prices.* All prices are on a dollar per hundredweight basis and include packaging or boxing costs, except where such costs are specifically provided for in paragraph (c) (3). Type 1 pork sausage is in one pound cartons only.

(j) The terms "approval by the Commissioner" and "determination by the Commissioner" shall, except as may be otherwise provided in regulations prescribed by the Commissioner, include an approval or determination by an agent of the Commissioner duly authorized to perform such act; and such approval or determination, if subsequently modified or reversed by the Commissioner, shall nevertheless for the purpose of these regulations, be deemed to have been continuously in effect from its original date until the first day of the payroll period immediately following reversal or modification or until such later date as the Commissioner may direct.

(k) The terms "approval by the War Food Administrator" and "determination by the War Food Administrator" shall, except as may be provided in regulations prescribed by the Administrator, include an approval or determination by an agent or agents of the Administrator duly authorized to perform such act.

(l) The term "agricultural labor" shall mean persons working on farms and engaged in producing agricultural commodities whose salary or wage payments exclusive of bonuses and additional compensation and without the contemplated adjustment are not in excess of $2,400 per annum. The War Food Administrator may by regulation issue such interpretations of this term as he finds necessary.

(m) The term "in contravention of the Act" means in contravention of the Act, these regulations, Executive Order 9250, Executive Order 9328, or any other orders, rulings or regulations promulgated under the Act.

§ 4001.2 *Authority of National War Labor Board.* The Board shall, subject to the provisions of sections 1, 2, 3, 4, and 8 of Title II of Executive Order No. 9250, of October 3, 1942, and except as otherwise provided in Executive Order No. 9299, of February 4, 1943, prescribing regulations and procedure with respect to wage and salary adjustments for employees subject to the Railway Labor Act, have authority to determine whether any:

(a) Wage payments, or

(b) Salary payments to an employee where the rate at which the salary, exclusive of bonuses and additional compensation and without regard to the contemplated adjustment, computed on an annual basis, is not in excess of $5,000 per annum, and where such employee

(1) In his relations with his employer is represented by a duly recognized or certified labor organization, or

(2) Is not employed in a bona fide executive, administrative, or professional capacity

are made in contravention of the Act, or any rulings, orders or regulations promulgated thereunder. Any such determination by the Board, made under rulings and orders issued by it, that a payment is in contravention of the Act, or any rulings, orders, or regulations promulgated thereunder, shall be conclusive upon all Executive Departments and agencies of the Government in determining the costs or expenses of any employer for the purpose of any law or regulation, either heretofore, or hereafter enacted or promulgated, including the Emergency Price Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the revenue laws of the United States, or for the purpose of determining costs or expenses under any contract made by or on behalf of the United States. Any determination of the Board made pursuant to the authority conferred on it shall be final and shall not be subject to review by The Tax Court of the United States or by any court in any civil proceedings.

§ 4001.3 *Rules, orders and regulations of Board.* The Board may make such rulings and issue such orders or regulations as it deems necessary to enforce and otherwise carry out the provisions of these regulations.

§ 4001.4 *Authority of the Commissioner of Internal Revenue.* The Commissioner, except as otherwise provided in Executive Order 9299, of February 4, 1943, prescribing regulations and procedure with respect to wage and salary adjustments for employees subject to the Railway Labor Act, shall have authority to determine, under regulations to be prescribed by him with the approval of the Secretary of the Treasury, whether any salary payments other than those specified in paragraph (b) of § 4001.2 and § 4001.6 of these regulations are made in contravention of the Act, or any regulations or rulings promulgated thereunder. Any such determination by the Commissioner, made under such regulations, that a payment is in contravention of the Act, or any rulings or regulations promulgated thereunder, shall be conclusive upon all Executive Departments and agencies of the Government in determining the costs or expenses of any employer for the purpose of any law or regulations, either heretofore or hereafter enacted or promulgated, including the Emergency Price Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the revenue laws of the United States, or for the purpose of determining costs or expenses under any contract made by or on behalf of the United States. Any determination of the Commissioner made pursuant to the authority conferred on him shall be final and shall not be subject to review by The Tax Court of the United States or by any court in any civil proceedings. No increase in a salary rate approved by the Commissioner shall increase the level of production costs appreciably or furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices or furnish the basis of further wage or salary increases.

§ 4001.5 *Rules and regulations of Commissioner.* The Commissioner may prescribe such regulations with the approval of the Secretary of the Treasury, and make such rulings as he deems necessary, to enforce and otherwise carry out the provisions of these regulations.

§ 4001.6 *Authority of the War Food Administrator.* Notwithstanding the provisions of §§ 4001.2, 4001.4, 4001.10 and 4001.13, the War Food Administrator shall have the authority to determine whether any salary or wage payments to agricultural labor are made in contravention of the Act or any rulings, orders or regulations promulgated thereunder: *Provided, however,* That the provisions hereof shall not be construed to affect the authority of the Board under the provisions of Executive Order No. 9017 (7 F.R. 237) as extended by Section 1, Title III of Executive Order No. 9250 (7 F.R. 7871, 7873). Any such determination by the Administrator shall be conclusive upon all Executive Departments and agencies of the Government in determining the costs or expenses of an employer for the purpose of any law or regulations, either heretofore or hereafter enacted or promulgated, including the Emergency Price

Control Act of 1942 or any maximum price regulation thereof, or for the purpose of calculating deductions under the revenue laws of the United States, or for the purpose of determining costs or expenses under any contract made by or on behalf of the United States. Any determination of the Administrator made pursuant to the authority conferred on him shall be final and shall not be subject to review by The Tax Court of the United States or by any court in any civil proceedings.

§ 4001.7 *Wage and salary increases for agricultural labor.* Considering that the general level of salaries and wages for agricultural labor is substandard, that a wide disparity now exists between salaries and wages paid labor in agriculture and salaries and wages paid labor in other essential war industries, and that the retention and recruitment of agricultural labor is of prime necessity in supplying the United Nations with needed foods and fibers, no increases in wages and salaries of agricultural labor shall, notwithstanding any other provision of any rules, orders or regulations under the Act of October 2, 1942, be deemed in violation of the Act or of any rules, orders or regulations thereunder; unless and until the War Food Administrator determines and gives public notice of his determination that, with respect to areas, crops, classes of employers, or otherwise, increases in salaries or wages for agricultural labor may no longer be made without the approval of the War Food Administrator.

§ 4001.8 *Wage and salary decreases for agricultural labor.* No employer shall decrease wages or salaries paid to agricultural labor below the highest salary rate or wage paid for such work between January 1, 1942, and September 15, 1942, without the approval of the War Food Administrator.

§ 4001.9 *Rules, orders and regulations of the Administrator.* The War Food Administrator may make such rulings and issue such orders or regulations as he deems necessary to enforce or otherwise carry out the provisions of the regulations in this part.

§ 4001.10 *Salary increases.* In the case of a salary rate of $5,000 or less per annum existing on October 27, 1942, or established thereafter, and in the case of a salary rate of more than $5,000 per annum existing on October 3, 1942, or established thereafter, no increase shall be made by the employer except as provided in regulations, rulings, or orders promulgated under the authority of these regulations. Except as herein provided, any increase made after such respective dates shall be considered in contravention of the Act and the regulations, rulings, or orders promulgated thereunder from the date of the payment if such increase is made prior to the approval of the Board or the Commissioner, as the case may be.

In the case, however, of a reasonable increase in the rate at which the salary (exclusive of bonuses and additional compensation) is computed, made both in accordance with the terms of a salary plan or a salary rate schedule and as a result of

(a) Individual promotions or reclassifications,

(b) Individual merit increases within established salary rate range,

(c) Operation of an established plan of salary increases based on length of service within established rate ranges,

(d) Increased productivity under incentive plans,

(e) Operation of a trainee system, or

(f) Such other reasons or circumstances as may be prescribed in orders, rulings, or regulations, promulgated under the authority of these regulations,

no prior approval of the Board or the Commissioner is required. No such adjustment shall increase the level of production costs appreciably or furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices or furnish the basis of further wage or salary adjustments.

§ 4001.11 *Limitation on wage and salary increases.* (a) No further increase in wages or salaries shall after April 8, 1943 be authorized by the Board or the Commissioner, as the case may be, except in the following cases:

(1) Such increases as are clearly necessary to correct substandards of living,

(2) Such wage or salary readjustments as may be deemed appropriate and may not have heretofore been made to compensate, in accordance with the Little Steel formula as heretofore defined by the Board, for the rise in the cost of living between January 1, 1941, and May 1, 1942,

(3) Salary and wage adjustments necessary to adjust salaries or wages up to the minimum of the tested and going rates paid for the same work in the same or most nearly comparable plants or establishments in the same labor market, except in rare and unusual cases in which the critical needs of war production require the setting of a wage or salary at some point above the minimum of the going wage or salary bracket.

(4) Reasonable adjustments in wages or salaries in case of promotions, reclassifications, merit increases, incentive wages or the like, provided that such adjustments do not increase the level of production costs appreciably or furnish the basis either to increase prices.

(b) In connection with the approval of wage or salary adjustments necessary to eliminate substandards of living or to give effect to the Little Steel Formula or in connection with the adoption of a longer work week, nothing herein contained shall be construed to prevent the approval of a wage or salary adjustment for workers in immediately interrelated job classifications to the extent required to keep minimum differentials between immediately interrelated job classifications necessary for the maintenance of productive efficiency. Such adjustments are to be tapered off rigorously in application to higher job classifications so as to apply only in those classifications and only to the extent necessary for productive efficiency in the interrelated job classifications.

§ 4001.12 *Increases subject to approval of Economic Stabilization Director.* All wage adjustments made by the Board which may furnish the basis either to increase price ceilings or to resist otherwise justifiable reductions in price ceilings, or if no price ceilings are involved which may increase the production costs above the level prevailing in comparable plants or establishments, shall become effective only if also approved by the Economic Stabilization Director.

§ 4001.13 *Decrease in salaries of less than $5,000.* In the case of a salary rate existing as of the close of October 3, 1942, under which an employee is paid a salary of less than $5,000 per annum for any particular work, no decrease shall be made by the employer below the highest salary rate paid for such work between January 1, 1942, and September 15, 1942, unless to correct gross inequities or to aid in the effective prosecution of the war. Any decrease in such salary rate after October 3, 1942, shall be considered in contravention of the Act and the regulations, rulings, or orders promulgated thereunder, if such decrease is made prior to approval of the Board or the Commissioner, as the case may be. The words "for any particular work" in the first sentence of this section refers to the particular work of the particular employee and not merely to a particular type of work. For example, the Act does not invalidate or prohibit a wage stabilization order establishing maximum wages for any particular type of work, so long as exception is made allowing the payment of wages higher than such maximum wages to any particular employee for the particular type of work where such higher wages were being paid to such employee for such work at the time the order was issued.

§ 4001.14 *Decreases in salaries of over $5,000.* In the case of a salary rate existing as of the close of October 3, 1942, under which an employee is paid a salary of $5,000 or more per annum, no decrease in such rate made by the employer shall be considered in contravention of the Act and the regulations promulgated thereunder (see section 5 (b) of the Act); *Provided, however,* That if by virtue of such decrease the new salary paid to the employee is less than $5,000 per annum, then the validity of such decrease below $5,000 shall be determined under the provisions of § 4001.13 of these regulations.

§ 4001.15 *Effect of unlawful payments.* (a) If any wage or salary payment is made in contravention of the Act or the regulations, rulings or orders promulgated thereunder, as determined by the Board, the Commissioner, or the War Food Administrator, as the case may be, the entire amount of such payment shall be disregarded by the Executive Departments and all other agencies of the Government in determining the costs or expenses of any employer for the purpose of any law or regulation, including the Emergency Price Control Act of 1942, or any maximum price regulation thereof, or for the purpose of calculating deductions under the revenue laws of the United States, or for the purpose of determining costs or expenses of any contract made by or on behalf of the United States. The term "law or regulations" as used herein includes any law or regulation hereafter enacted or promulgated. In the case of wages or salaries decreased in contravention of the Act or regulations, rulings or orders promulgated thereunder, the amount to be disregarded is the amount of the wage or salary paid or accrued. In the case of wages or salaries increased in contravention of the Act or regulations, rulings or orders promulgated thereunder, the amount to be disregarded is the amount of the wage or salary paid or accrued and not merely an amount representing an increase in such wage or salary.

(b) Payments made or received in violation of any regulations, rulings, or orders promulgated under the authority of the Act are subject to the penal provisions of the Act.

§ 4001.16 *Exempt employers.* The provisions of §§ 4001.10, 4001.11, 4001.13 and 4001.14 shall apply only in the case of an employer who employs more than eight individuals.

§ 4001.17 *Salary allowances under Internal Revenue Code.* No provision of these regulations shall preclude the Commissioner from disallowing as a deduction in computing Federal income tax any compensation paid by an employer (regardless of the number of employees and of the amount paid to any employee) in excess of a "reasonable allowance" in accordance with the provisions of section 23 (a) of the Code.

§ 4001.18 *Statutory salaries and wages.* These regulations shall be applicable to any salary or wages paid by the United States, any State, territory or possession, or political subdivision thereof, the District of Columbia, or any agency or instrumentality of any one or more of the foregoing, except where the amount of such salary or wages is fixed by statute.

§ 4001.19 *Territories and possessions.* The Board, the Commissioner, and War Food Administrator shall have the authority to exempt from the operation of these regulations any wages or salaries paid in any Territory or possession of the United States where deemed necessary for the effective administration of the Act and these regulations.

§ 4001.20 *Applicability.* These amended regulations supersede as of their effective date the regulations promulgated by the Director of Economic Stabilization, with the approval of the President, dated October 27, 1942 (7 F.R. 8748), as amended and are applicable to all salary adjustments within the authority of the Commissioner, the Board, or the War Food Administrator, as the case may be, which are made after that date.

§ 4001.21 *Regulations of Economic Stabilization Director.* The Director shall have authority to issue such regulations as he deems necessary to amend, modify or rescind these regulations.

FRED M. VINSON,
Economic Stabilization Director.

§ 10.404 *Allotments.* The Surgeon General, pursuant to the authority contained in section 4d of the act, has determined that $10,276,200 (or 77.78%) of the total amount available for the fiscal year 1944 shall be allotted to the States. Allotments have been made in accordance with the following bases, and then have been adjusted for the unexpended balances in the States from previous allotments under the act:

(a) *Population.* Allotments amounting to 17.93 percent of the available appropriations will be made to the several States in the ratio which the civilian population of each State bears to the population of the United States as shown by provisional estimates of the civilian population made by the Bureau of the Census for March 1, 1943.

(b) *Extent of the venereal disease problem.* Allotments amounting to 42.18 percent of the available appropriations will be made to the several States on the bases of:

(1) The varying composite and racial prevalence rates for syphilis.

(2) The extent to which treatment facilities have been provided as evidenced by the population under treatment for syphilis.

(3) The varying costs of providing equal services as determined by the inverse function of the syphilitic density, and the direct function of the size of the population of each State and Territory.

(4) The need for training centers and demonstrations in selected areas.

(5) The need for facilities for the prevention and control of the venereal diseases in localities where armed forces or civilian employees engaged in war activities are concentrated.

(6) The anticipated scope of the programs necessitated by the war.

(c) *Financial needs.* Allotments amounting to 17.67 percent of available appropriations will be made to the several States on the basis of their financial needs, as determined by the ability of the States to raise revenue expressed in terms of per capita income differences obtained from data supplied by the Bureau of Foreign and Domestic Commerce for the five-year period 1938-1942.

§ 10.407 *Training and administration.* When Federal funds paid hereunder are utilized for the training of venereal disease control personnel, each State shall conform to "Training Policies of the United States Public Health Service" as amended to July 1, 1943. Each State shall establish and maintain (1) acceptable administrative and fiscal procedures; and (2) a system of personnel administration on a merit basis in accordance with "Merit System Policies of the United States Public Health Service" as amended to May 15, 1942.

§ 10.415 *Required minimal services.* * * *

(d) Free distribution of drugs for the treatment of syphilis and gonorrhea shall be made on the request of any physician authorized by the law of his State to administer such drugs for the treatment of his patients: *Provided,* That where health departments have established the policy of furnishing such drugs to the physician conditional upon receiving a morbidity report on the case to be treated, such policy will not in any way be altered by this regulation.

DEPARTMENT OF THE INTERIOR.

Bureau of Mines.

JAMES E. WHITE

PROCEEDINGS FOR REVOCATION OF LICENSES

Order revoking licenses, directing surrender of licenses and requiring records to be furnished.

To: James E. White, R. F. D., Route 8, Argonne and Broadway, Spokane, Washington.

Based upon the records in this matter, I, R. R. Sayers, Director of the Bureau of Mines, make the following findings of fact.

1. On July 7, 1943, a Specification of Charges against you, setting forth violations of the Federal Explosives Act (55 Stat. 863), as amended, and the regulations pursuant thereto of which you were accused, was mailed to you giving you notice to mail an answer within 15 days answering the charges against you and requesting an oral hearing if you wished.

2. More than 30 days have elapsed since July 7, 1943. The length of time required for mail to be delivered to the office of the Bureau of Mines, Washington, D. C., from Spokane, Washington, does not exceed 7 days. The only communication which I have received from you is your answer dated July 15. You have not requested an oral hearing.

3. You have admitted that on and after March 20, 1942, you sold explosives to persons not licensed under the Federal Explosives Act and you have not denied that you thereby violated section 2 of the act. I find that you did make such sales and that you did violate section 2 of the act.

4. You have admitted that you placed your explosives in the custody of a person not licensed under the Federal Explosives Act and you have not denied that you thereby violated section 2 of the act and section 20 (b) of the regulations. I find that you did place your explosives in the custody of an unlicensed person and that you did violate section 2 of the act and section 20 (b) of the regulations.

5. You have admitted that there are errors in your record of explosives transactions and operations and you have not denied that you thereby violated section 5 of the Federal Explosives Act and section 14 (d) of the regulations. I find that there were such errors and that you did violate section 5 of the act and section 14 (d) of the regulations.

6. You have not denied that in July 1942 and thereafter you stored explosives in five magazines which were not properly constructed, safely located and securely locked and that the explosives were not otherwise protected against theft or that you thereby violated section 17 (a) of the regulations under the Federal Explosives Act. Your answer does allege that certain improvements have now been made in one of your magazines and that you no longer use two of your other magazines. I find that you did not take proper precautions to protect your explosives against theft and that you did violate section 17 (a) of the regulations.

7. You have not denied that you have failed and refused to furnish to my authorized representatives certain information concerning your business in so far as it relates to explosives by failing to reply to requests for such information sent to you by the Chief and Assistant Chief of the Explosives Control Division, Bureau of Mines, or that you thereby violated section 10 of the Federal Explosives Act. I find that you did fail and refuse to furnish the information and that you did violate section 10 of the act.

Now, therefore, by virtue of the authority vested in me by the Federal Explosives Act and the regulations pursuant thereto, I hereby *Order*

1. That all licenses issued to you under the Federal Explosives Act be and they are hereby revoked at the expiration of three weeks from the date of this order;

2. That within three weeks from the date of this order, you shall sell or otherwise dispose of, to properly licensed persons, all explosives and ingredients of explosives owned or possessed by you or consigned to you, or which are in your custody;

3. That after having disposed of all of the explosives and ingredients as required by paragraph 2 of this order, you shall, within three weeks from the date of this order, deliver or mail to L. H. McGuire, Engineer in Charge, United States Bureau of Mines, 233 Federal Office Building, Seattle 4, Washington, a sworn statement of your transactions in explosives and ingredients beginning with the date of this order and ending with the final disposition of the explosives and ingredients as required above. The statement shall set forth the amount of each kind of explosives or ingredients which you had on hand at each location at the opening of business on the date of this order, the amount of each kind acquired by you that day and each day thereafter, the dates on which acquired, and the names and addresses of the person from whom acquired, the amount of each kind sold or otherwise disposed of by you, the dates on which disposed of and the names and addresses and Federal explosives license numbers and dates of the persons to whom disposed of;

4. That within three weeks from the date of this order, you shall surrender all licenses issued to you under the Federal Explosives Act and all certified and photographic copies thereof by mailing or delivering them to L. H. McGuire, Engineer in Charge, United States Bureau of Mines, 233 Federal Office Building, Seattle 4, Washington.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

This order shall be published in the Federal Register.

Dated: August 26th, 1943.

[Region IV Gen. Order G-28 Under 18 (c)]

Oak Firewood in Albemarle, N. C.

General Order G-28 under § 1499.18 (c) of the General Maximum Price Regulation. Adjustment of oak firewood prices in Albemarle, North Carolina and immediate vicinity.

The Regional Administrator of the Office of Price Administration, Region IV has determined upon his own motion that in his judgment the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale or delivery of oak firewood are inadequate to insure a sufficient supply of such firewood to meet the heating requirements in Albemarle, North Carolina and immediate vicinity. The Regional Administrator has ascertained and given due consideration to the increased costs of production and transportation which sellers of oak firewood in Albemarle, North Carolina must incur in order to produce such firewood compared with such cost in March, 1942, and in any earlier months in which such firewood was generally produced in Albemarle, North Carolina. So far as practicable, the Regional Administrator has advised and consulted with sellers of such firewood who will be affected by this order.

In the judgment of the Regional Administrator, the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established under § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of oak firewood in Albemarle, North Carolina and immediate vicinity.

General Order G-29 under § 1499.18 (c) of the General Maximum Price Regulation. Adjustment of firewood prices in Roanoke Rapids Township, North Carolina.

The Regional Administrator of the Office of Price Administration, Region IV, has determined upon his own motion that in his judgment the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale or delivery of firewood are inadequate to insure a sufficient supply of firewood to meet the requirements in Roanoke Rapids Township, North Carolina. The Regional Administrator has ascertained and given due consideration to the increased cost of production and transportation which sellers of firewood in Roanoke Rapids Township, North Carolina must incur in order to produce firewood compared with such cost in March, 1942, and in any earlier months in which firewood was generally produced in Roanoke Rapids Township, North Carolina. So far as practicable, the Regional Administrator has advised and consulted with sellers of firewood who will be affected by this order.

In the judgment of the Regional Administrator, the maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established under § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of firewood in Roanoke Rapids Township, North Carolina.

(2) The maximum prices for sales or deliveries of pine firewood in lengths from 10 to 20 inches shall be:

(i) One cord, $8.00.
(ii) One half cord, $4.00.

(3) The maximum prices for sales or deliveries of oak firewood in 4 foot lengths shall be:

(i) One cord, $7.00.
(ii) One half cord, $3.50.

(4) The maximum prices for sales or deliveries of oak firewood in lengths from 10 to 20 inches shall be:

(i) One cord, $7.50.
(ii) One half cord, $3.75.
(iii) One quarter cord, $1.90.

The prices established in this order include delivery at the purchaser's premises and other services incident to the sale of firewood customarily performed by the seller in March, 1942.

All credit terms, discounts, allowances and price differentials offered by the seller during March, 1942, shall be maintained.

(b) *Definitions.* When used in this order the term:

(1) "Pine firewood" means pine wood prepared and intended for consumption as fuel which is sawed and split into either 4 foot lengths or into pieces varying from 10 to 20 inches in length.

(2) "Oak firewood" means any mixture of wood of deciduous trees prepared and intended for consumption as fuel of which at least 75 percent is oak and which is sawed and split into either 4 foot lengths or into pieces varying from 10 to 20 inches in length.

(c) *Records and reports.* (1) Every seller at retail whose maximum prices are established by this order must keep posted at a conspicuous place in his place of business a copy of this order.

(2) Every seller whose maximum prices are established by this order shall keep for inspection by the Office of Price Administration a record of each sale of firewood made by him on and after the effective date of this order. Such record must show the date of delivery, the kind and quantity of wood sold, the name of the purchaser and the amount charged for the sale.

(3) Every seller at retail whose maximum prices were established by this order shall deliver to the purchaser with respect to each sale thereof a written bill or invoice which shall contain (1) the date on which the sale or contract of sale was made; (2) a description of the size, kind, quality and quantity of firewood involved in the transaction; (3) the prices charged; and (4) the following statement:

By Order No. G–29 under § 1499.18 (c) of the General Maximum Price Regulation, issued by the Regional Office, Region IV, on July 29, 1943, effective July 26, 1943, the office of Price Administration established maximum prices for firewood sold or delivered at retail in Roanoke Rapids Township, North Carolina, as follows:

(f) *Applicability of other regulations.* Except as inconsistent with or contradictory of the terms and provisions of this order, all of the terms and provisions of Revised Maximum Price Regulation No. 122, except paragraph (c) of § 1340.262 thereof, shall apply to all dealers selling and delivering coal in the Greeley trade area with like force and effect as though the same were re-written herein. If you sell solid fuel of a kind or size not specifically priced by this order, all such sales and deliveries remain subject to the provisions of Revised Maximum Price Regulation No. 122.

(g) *What you must not do.* Regardless of any contract or other obligation which you may have heretofore entered into, you shall not: (1) Sell, or in the course of trade or business, buy bituminous or subbituminous coal of the kinds and sizes covered by this order at prices higher than the maximum prices set forth herein; but you may sell or buy such coal at lower prices than such maximum prices.

(2) Obtain any prices higher than the applicable maximum prices by:

(i) Changing or withdrawing your customary discounts, differentials or allowances;

(ii) Charging for any service which is not expressly requested by the buyer; or

(iii) Charging for any service for which a charge is not specifically authorized by this order; or

(iv) Charging a price for any service higher than the price authorized by this order for such service; or

(v) Increasing your delivery charges, if any, for delivery outside the Greeley trade area, or increasing any interest rate on delinquent and past-due accounts over the rate or charge made by you in December 1941; or

(vi) Using any tying agreement whereby the buyer is required or persuaded to purchase anything other than the fuel requested by him; or

(vii) Using any other device by which a price higher than your maximum price is obtained either directly or indirectly.

(h) *An increase in your supplier's prices does not authorize you to increase your prices.* You must not increase the specific maximum prices established for you by this order to reflect in whole or in part any subsequent increase to you in your supplier's maximum prices for the fuel covered by this order. These specific maximum prices established for you by this order reflect all of the increases in the maximum prices of your supplier to the date hereof. If increase in your supplier's maximum prices shall occur after the effective date of this order, you may bring that fact to the attention of the Regional Administrator whereupon he will take such appropriate action in the premises as the then existing facts and circumstances justify.

(i) *Adjustable pricing.* You may not make a price adjustable to a maximum price which becomes effective at some time after you have made delivery of the coal; but you may agree to sell at whatever maximum price is in effect at the time of delivery.

(j) *Petition for amendment.* If you desire an amendment of any provisions of this order, you may file a petition therefor with the Regional Administrator and in accordance with the provisions of Revised Procedural Regulation No. 1.

(k) *Definitions.* (1) "Carry" or "wheel-in" means to transport coal from the vehicle in which delivery is made and place the same in the buyer's bin or storage space when the physical condition of the premises are such as to prevent dumping or unloading directly into such bin or storage space.

(2) "Pull-back" or "trimming" means to arrange and place coal in the buyer's bin by re-handling the same for the purpose of filling the bin to capacity.

(3) "Direct delivery" means delivery to the buyer's bin or storage space by dumping, chuting, or shoveling directly from the seller's truck or vehicle.

(4) "Yard sales" mean sales accompanied by physical transfer to the buyer's truck or vehicle at the seller's coal yard or stock pile.

(5) "Dealer" means any person selling bituminous or sub-bituminous coal of any kind or size for which a maximum price is established by this order for sales made in the Greeley trade area and does not include transactions whereby a producer or distributor makes a sale at or from a mine or preparation plant operated as an adjunct of a mine.

(6) "Bituminous coal" means coal produced in District 17 and any subdistrict thereof as set forth in the minimum price schedules of the Bituminous Coal Division of the Department of the Interior.

(7) "Sub-bituminous coal" means coal produced in District 16 and any subdistrict thereof as set forth in the minimum price schedules of the Bituminous Coal Division of the Department of the Interior. This "sub-bituminous coal" produced in District 16 is commonly referred to as "lignite."

(l) *Right to revoke or amend.* This order may be revoked, modified or amended at any time by the Price Administrator or the Regional Administrator.

(m) *Effective date.* This order shall become effective as of July 30, 1943.

Notice is hereby given that an amendment to a declaration in the File No. 70-752 proceedings herein has been filed with this Commission by Electric Power & Light Corporation ("Electric"), a registered holding company, pursuant to the Public Utility Holding Company Act of 1935. All interested persons are referred to said document which is on file in the office of this Commission, for a statement of the transaction therein proposed, which is summarized as follows:

On June 26, 1943, Electric filed a declaration under which it proposed to sell 450,000 shares of $20 par value common stock of Idaho Power Company ("Idaho"). On July 29, 1943, the Commission issued its order granting an application by Electric for exemption of said sale from the competitive bidding requirements of Rule U-50 (Holding Company Act Release No. 4458), subject to certain terms and conditions and to certain reservations of jurisdiction including jurisdiction to pass, in case of sale of such shares, upon the price to be received therefor by Electric, the spread between the price to Electric and the offering price to the public, and all other matters relating to the terms and conditions of said sale. Electric proposes in said amendment to accept the offer, received pursuant to negotiations for the sale of said shares, of Blyth & Co., Inc. and Lazard Freres & Co. on behalf of and as representatives of an underwriting group, to purchase said shares, the price at which such shares are to be offered to the public and the spread to the underwriters to be supplied by a further amendment.

It appearing that the Trial Examiner heretofore designated to preside at the hearings in these consolidated proceedings will be unable to do so,

It is hereby ordered, That the hearing in the above entitled matter be reconvened on August 30, 1943 at 2:00 P. M., E. W. On such day, the hearing room clerk, in room 318, will advise as to the room where such hearing will be held. At such hearing cause shall be shown

why such amended declaration shall become effective. Notice is hereby given of said reconvened hearing to Electric Power & Light Corporation and to all interested persons, and additional notice is to be given to Electric Power & Light Corporation by confirmed telegraphic notice, and said notice shall be published in the FEDERAL REGISTER.

It is further ordered, That Robert P. Reeder, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under Section 18 (c) of the Act and to a trial examiner under the Commission's Rules of Practice.

It is further ordered, That, without limiting the scope of issues presented by said amendment otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the price to be received for such shares by Electric, and whether the spread between such price and the offering price to the public, are reasonable.

2. Whether the fees and expenses incurred by Electric in connection with said sale are reasonable under the circumstances.

3. Whether all other matters relating to terms and conditions of said sale are appropriate and in the public interest and in the interest of investors.

4. Whether there has been a maintenance of competitive conditions in connection with such sale.

5. Whether it is necessary or appropriate to impose any terms or conditions in the public interest or for the protection of investors, including any terms and conditions to insure that after said sale Idaho will not be subject to the control or controlling influence of Electric or Electric Bond and Share Company.

HOUSTON GULF GAS CO.

ORDER PERMITTING POST-EFFECTIVE AMENDMENT TO DECLARATION AND DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 27th day of August A. D. 1943.

Houston Gulf Gas Company, an indirect subsidiary of United Gas Corporation, a subsidiary of Electric Power & Light Corporation, a registered holding company which in turn is a subsidiary of Electric Bond and Share Company, also a registered holding company, having filed a declaration and amendments thereto pursuant to the Public Utility Holding Company Act of 1935; and

The Commission having on March 15, 1943 issued its notice of said filing (Holding Company Act Release No. 4171) in the form and manner prescribed by Rule U-23 promulgated pursuant to said Act and having summarized therein the transactions proposed in said filing as follows:

"Houston Gulf Gas Company ("Houston Gulf"), an indirect subsidiary of United Gas Corporation, a subsidiary of Electric Power & Light Corporation, which in turn is a subsidiary of Electric Bond and Share Company, both registered holding companies, proposes to issue its promissory note dated on or about April 15, 1943 in the principal amount of $600,000 bearing interest at the rate of 2% per annum, payable six months from the date thereof to the First National Bank of Boston ("Bank") and to use the cash proceeds therefrom to construct natural gas transmission facilities and make changes in existing equipment, the cost of which is estimated at $600,000. This expenditure is alleged to be necessary to enable Houston Gulf to convey to Defense Plant Corporation for a cash purchase price of $2,625,000 its 14" and 16" natural gas transmission line extending from Refugio, Refugio County, Texas to Pierce Junction, Harris County, Texas, for conversion into an oil pipe line. The proposed sale and conversion are stated to be necessary for the more effective prosecution of the war.

Houston Gulf is presently indebted to Bank in the sum of $3,000,000 representing the unpaid balance on a 2½% note in the principal amount of $6,000,000 dated August 29, 1940, maturing August 29, 1945, and payable in semi-annual installments of $600,000. The note provides that the proceeds of the sale of any of the Houston Gulf's properties, in excess of $50,000 in any twelve month period, shall be applied toward the payment of the principal amount thereof.

Houston Gulf proposes to use the proceeds of the sale of its natural gas transmission line above described, to which the Bank has agreed, as follows:

To payment of note proposed to be issued as described above	$600,000
For other corporate purposes	400,000
To partial prepayment of the unpaid balance on the note held by the Bank as described above	1,500,000
Increase in Declarant's cash	125,000
Total	$2,625,000

Following the consummation of the previously described transactions, declarant proposes to issue to the Bank a new 2½% note in the principal amount of $1,500,000 payable in semi-annual installments of $300,000 and maturing on August 29, 1945. This note together with a like principal amount of cash as indicated above will be used to prepay the unpaid balance on the declarant's note dated August 29, 1940, which will be surrendered and cancelled;

and

The Commission having on April 8, 1943 issued its order herein (Holding Company Act Release No. 4232) pursuant to Rule U-23 and the applicable provisions of the Act in which it stated that the Commission had not received any request for hearing with respect to said declaration within the period prescribed in said Notice or otherwise and had not ordered a hearing thereon and that all applicable statutory requirements were met and in which it therefore ordered that the declaration as amended be permitted to become effective; and

The Declarant having on August 26, 1943 filed a post-effective amendment to the said declaration in which it states that it has been unable to consummate the conveyance of its pipe line to Defense Plant Corporation under the contract dated February 9, 1943 and as a consequence has not yet received the consideration to be paid to it by Defense Plant Corporation and is therefore not in a position to meet the installment of $600,000 payable to the First National Bank of Boston under the terms of Declarant's note dated August 29, 1940 and that the obligation of the First National Bank of Boston to accept $1,500,000 in cash and a new note in the principal amount of $1,500,000 will terminate on August 29, 1943 unless extended, and that Declarant and the First National Bank of Boston have entered into a supplemental agreement extending the time for payment of the above-mentioned installment of $600,000 from August 29, 1943 to September 28, 1943 and extending for the same period the obligation of the First National Bank of Boston to accept a payment in cash and a new note in full payment of the note of August 29, 1940 and that approval is sought of said extension agreement; and

It appearing to the Commission to be appropriate in the public interest and in the interest of investors and consumers that said amendment and said declaration as so amended be permitted to become effective;

It is ordered, That said amendment and said declaration as so amended be, and hereby is, permitted to become effective forthwith.

By the Commission.
